

Compliance AI Agent

Speed up supplier onboarding
with trusted, data-driven risk checks.

Trask Compliance AI Agent helps companies streamline compliance and supplier risk evaluation in B2B business. It automates manual, time-consuming checks using official registers and sanction lists, and delivers a clear risk score, high-level summary, and detailed compliance report for each supplier.

The Result

Faster supplier onboarding, less manual work, reduced regulatory risk, more consistent decisions, improved decision-making, and lower time and cost of compliance evaluation.

What Changes When the AI Agent Takes Over?

Trask Compliance AI Agent turns supplier evaluation from a manual review into a structured workflow. It guides the process from information collection and verification through financial analysis and data enrichment to committee preparation, helping teams move faster from input to decision.

Four Shifts in Supplier Risk Evaluation

Automated risk checks

Eliminates manual work and speeds up supplier evaluations.

Verified data sources

Uses official registers and sanction lists for accuracy.

Consistent decisions

Supports data-driven, objective risk scoring.

Scalable solution

Handles hundreds of suppliers quickly and reliably.

Best fit: Designed for all industries.

How It Works: From Supplier Input to Committee Preparation

- 1 Information Collection.** The agent collects the supplier information needed to start the compliance and risk evaluation process.
- 2 Verification.** Supplier data is checked against official registers and sanction lists to support accuracy and regulatory compliance.
- 3 Financial Analysis.** Available financial information is assessed as part of the supplier risk evaluation.
- 4 Information Enrichment.** The agent enriches the supplier information to support compliance and risk evaluation.
- 5 Committee Preparation.** The agent prepares a clear risk score, high-level summary, and detailed compliance report for decision-making.
