The 32 cm RGB LED Ring Light offers 27 dynamic RGB modes and 3 shades of white light, perfect for creating the ideal gaming atmosphere. Effortlessly control the lighting with the attached controller on a 2-meter USB cable, allowing you to power on/off, change colors, switch modes, and adjust speed. Enhance your gaming recordings using the flexible phone holder, and transform your room into a colorful gamer's paradise. The height-adjustable tripod, ranging from 73 cm to 210 cm, ensures versatile and stable positioning for capturing the perfect shot.
