4. Important notes

This agreement will act as authorisation for us to deduct the amount, as elected above, from your bonus or commission payment for the month shown. Your bonus or commission will therefore be reduced by the amount you have stated, before the calculation of tax and National Insurance. Your elected amount is then paid to Royal London as a one-off employer contribution.

This agreement will serve for this bonus or commission payment only, and will not be accepted for any future bonuses or commissions. A new bonus or commission sacrifice agreement will need to be completed for any subsequent bonuses or commissions you wish to sacrifice.

Bonus and commission sacrifice follow the same process as salary sacrifice on regular pension contributions. Full information on how salary sacrifice works can be found in the essential guide, available from benefits@infoblox.com.
