

Zeelo partnered with Dwight School London, to help them run an efficient, electric home-to-school service.

Zeelo provided us with a packaged transport service immediately taking over compliance, scheduling and providing vehicles to an agreed budget and with a responsive support team

Director of Operations, Susan Meadows

Modal Shift

Since January 2022, Dwight School London had on average 596 cars removed from the road each month

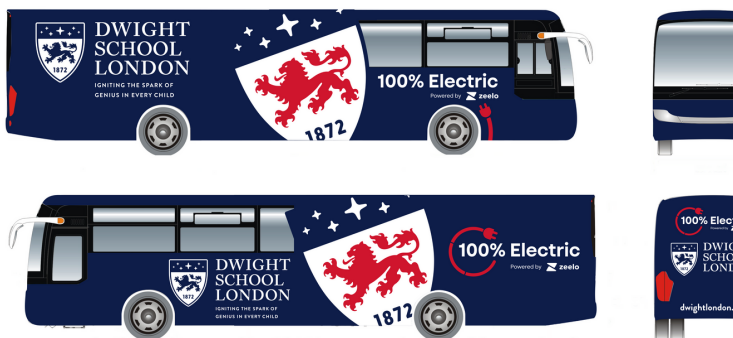

Boosting catchment

We were able to quickly design three bus routes with 24 pick-up stops to best serve students, from further afield.

Sustainability

Zeelo saves Dwight 9,337kg of CO2 each month - averaging 6.27 kg of CO2 per rider

Pathway to Net-Zero

The new option to switch to a 100% electric bus service allows Dwight to reduce CO2 emissions by an additional 3 cubic tonnes each year
