

Zeelo supported an existing commuter service with technology and a reliable operator through a fully managing the service

Facing inefficiency and technological shortcomings with the existing operator, Zeelo supported this technology company with a fully managed employee transportation program.

Steady ridership through the service transition

Zeelo maintained ridership from the existing service, with over 40 active travel passes with 750 rides booked on the service showing rider adoption.

Improved operations

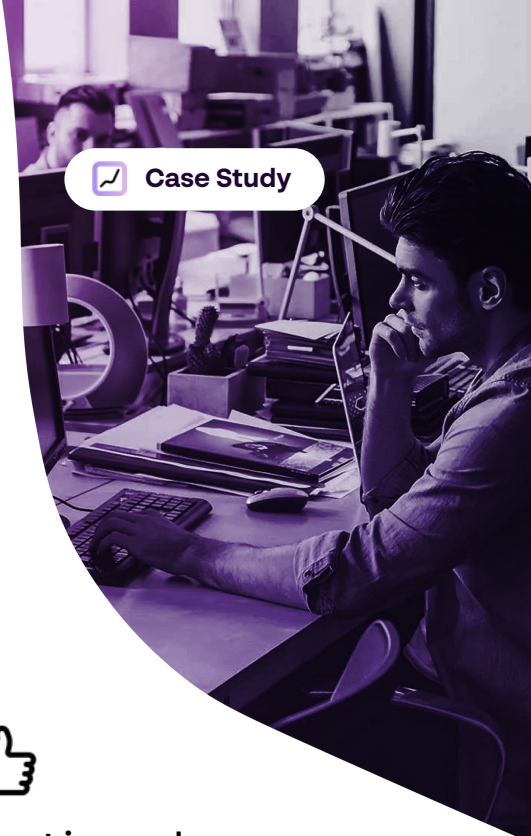

With a remarkable 100% driver app usage and live tracking, plus 98% on-time service, Zeelo increased operator efficiency with our fully managed service.

Boost in employee satisfaction

Zeelo's technology helped increase efficiency of the shuttle and overall employee satisfaction with an overall rider rating of 4.8

Return to Office Transportation Solutions

As the company navigated the return of employees to the office and frequent traveling staff staying in the area, Zeelo ensured a seamless corporate commute while also reducing admin time for management. Zeelo's comprehensive service provided employee insights, with visibility into who was riding and when.
