We innovate through recycling,  
ensuring maximum value in every  
material we use

**We are specialized manufacturer  
of sustainable waste bags crafted  
from high-quality recycled  
materials**

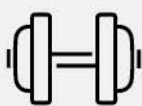

### 100% recyclable material in our waste bags

At Zubairi, we have incorporated a production process for extrusion and film manufacturing that utilizes 100% recyclable materials, without the presence of adherent or solvent components. This process eliminates the need for separating elements during material recycling.

#### Three-ply material

At Zubairi we manufacture triple layered trash bags that provides extra strength and prevents breakage

#### Sturdy build

Our garbage bags are checked rigorously for strength and capacity

#### Anti-Drip System

Its seamless base sealing prevents dripping of liquids that accumulate at the bottom of the bag.

**Premium Plastic**  
**Carry Bags** That Do  
More Than Just Carry

## CARRY BAGS

Designed for retail, supermarkets, and grocery stores, our versatile bags deliver reliability and convenience for every in-store requirement.

### Reusable Oxo-Biodegradable Plastic Bags

Our plastic bags are durable and can decompose naturally over time, reducing long-term plastic waste. They offer the strength of regular plastic bags with added environmental benefits, making them ideal for sustainable use.
