

Hypatos

Do business. Not admin.

Hypatos AI Agents transform business services by taking over the repetitive, high-volume tasks that slow down GBS teams. From capture to completion, they deliver speed, accuracy, and efficiency - so experts can focus on the strategy, not routine work.

Hypatos AI Agents for end-to-end autonomy

Invoice Processing

Autonomously captures, validates, and posts invoices - reducing errors, accelerating approvals, and ensuring touchless processing from receipt to booking.

Order Acknowledgement

Extracts, compares, and confirms supplier order responses in real time flagging mismatches early and keeping your supply chain on track.

Order Management

Manages incoming orders end-to-end - automating capture, validation, and entry across systems to speed up fulfillment and reduce costly errors.

Expense Management

Reduces manual audits and approvals of employee expenses - catching policy violations, duplicates, and fraud before reimbursement.

Achieve operational excellence with adaptive solutions

Error-Free Processes

Prevent fraud, catch duplicates, eliminate bottlenecks and automate coding, predictions and any type of master data management - any channel, any file, 200+ languages.

Always-On Compliance

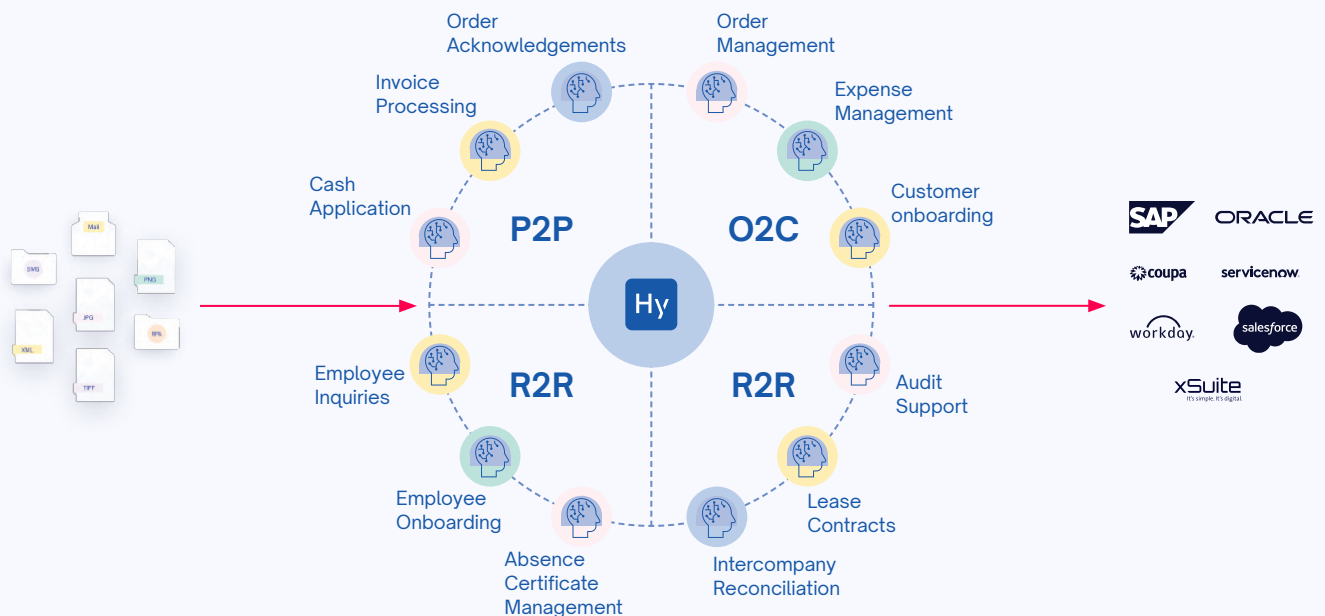

AI Agents get tasks done embedded with the latest ground-truth, public regulatory guidelines and relevant external databases, to reduce operational stress and legal risk.

Fostering Autonomy

Easily transfer expert knowledge to your agents making them domain specialists that independently evaluate, decide on and handle tasks within your context and policies.

Agentic Process Automation

Enterprise-ready

Hypatos AI Agents are secure, reliable, and built for scale. We offer 24/7 customer support, direct ERP integration and global BPO partnerships to be there when you need a hand.

About Hypatos

Hypatos is a leader in agentic process automation, transforming enterprise operations with AI co-workers. The company's AI agents autonomously handle complex tasks with speed and precision, helping enterprises reduce manual effort, ensure compliance, and process data, documents and transactions 100x faster with 75% fewer errors.

Hypatos is trusted by large organizations across Europe and North America, with hubs in Berlin, Miami, and New York, and teams working remotely across 15+ countries.
