

Your AP workday handled by *agents and people*.

Out-of-the-box (OOTB) agents orchestrate the work, people supervise and measure.

Where the hours go	Who takes it over
Invoice capture and coding	✦ Invoice agent
Exceptions and approvals	✦ Exception agent
Supplier inquiries, disputes	✦ Supplier desk agent
Statements, blocks, GR/IR	✦ Reconciliation agent
Tax and compliance checks	✦ Tax agent
Close and audit support	✦ Close agent
Approvals, policy decisions	👤 People

End-to-end work completion, beyond touchless rates

Touchless rates measure automated transactions. Workforce orchestration measures the hours of AP work absorbed.

Exception agent

Handle exceptions within thresholds.

Price, quantity and PO gaps

Supplier desk agent

Classify the request, find context, and resolve with the supplier.

Payment status

Tax agent

Analyze goods movement to assign the correct tax code.

Coding and validation of VAT, sales taxes

Work automation at scale.

- 100M+ invoices processed
- Avg. 44k invoices per AP staff member annually
- ~\$250B in spend automated

97%

PO automation at Asklepios,
1.8M invoices

95%+

Tax coding accuracy at E.ON,
500+ company codes

From email to SAP, *end-to-end*
