

HOLOBOX 911

HoloBox911 is a commercial-grade holographic display system that renders life-sized, photorealistic holograms inside a transparent optical enclosure. It creates the optical illusion that a real person, brand ambassador, or AI-powered agent is physically present — producing an immediate, impact on anyone who encounters it.

Traditional Displays Vs HoloBox

	TRADITIONAL	HOLOBOX 911
Visual style	Flat 2D video	Realistic life-sized holograms
Attention	Medium	Very high — draws crowds
Engagement	Passive viewing	Visitors stop, film, interact
Brand recall	Limited	Strong and lasting
Production	Standard video	4K studio capture
Viral potential	Low	High — built to be shared

Specifications: 7-Foot HoloBox — 86" Display

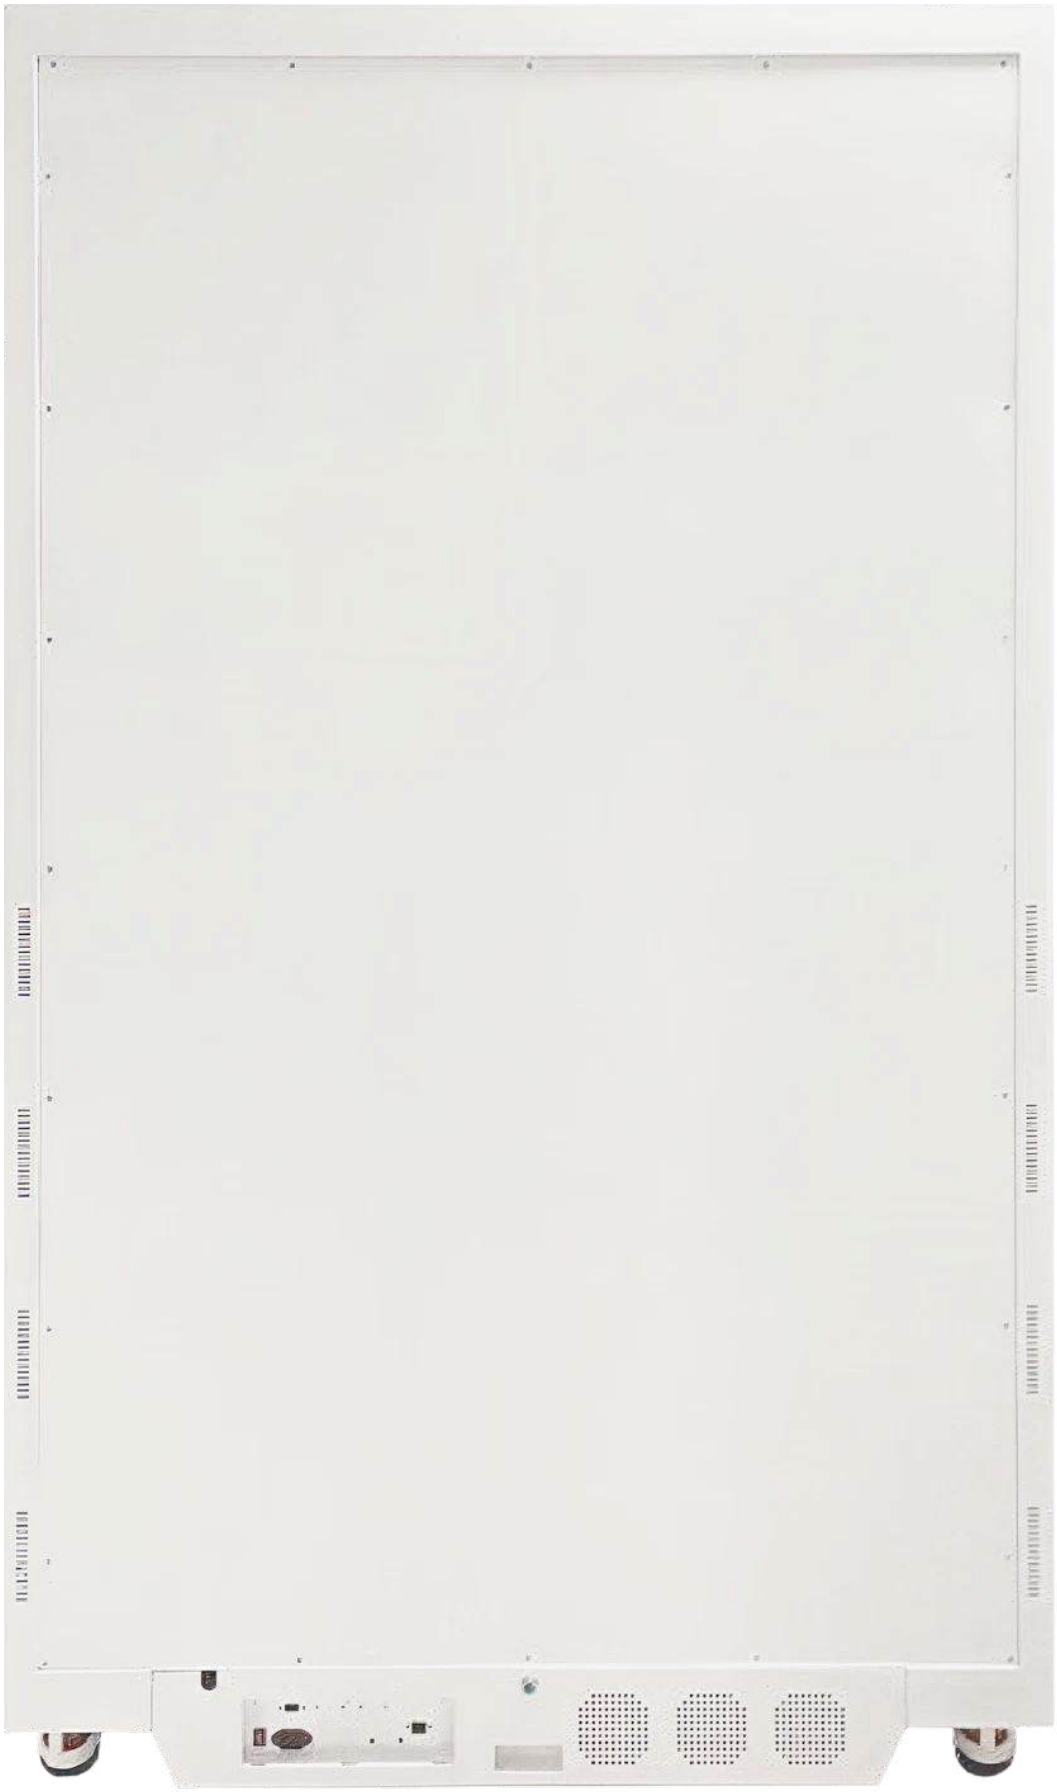

DISPLAY & ENCLOSURE

Display	Fully transparent display
Display area	86" diagonal
Display size	1901.6 × 1072.6 mm
Dimensions	213 cm (H) × 128.2 cm (W) × 60 cm (D)
Touch interactivity	IR touch, 10 points
Weight	220 Kgs

AUDIO, POWER & CONNECTIVITY

Audio system	10 W – 18 W × 2
Camera & mic	Ultra-HD web camera mic + 4–8 array mic
Power supply	AC 100–240 V
Power consumption	550 W standby · 700 W full load
Connectivity	2.4 / 5 GHz Wi-Fi & Ethernet
Media input	SD card, USB, or media server

Four finishes. Superior presence.

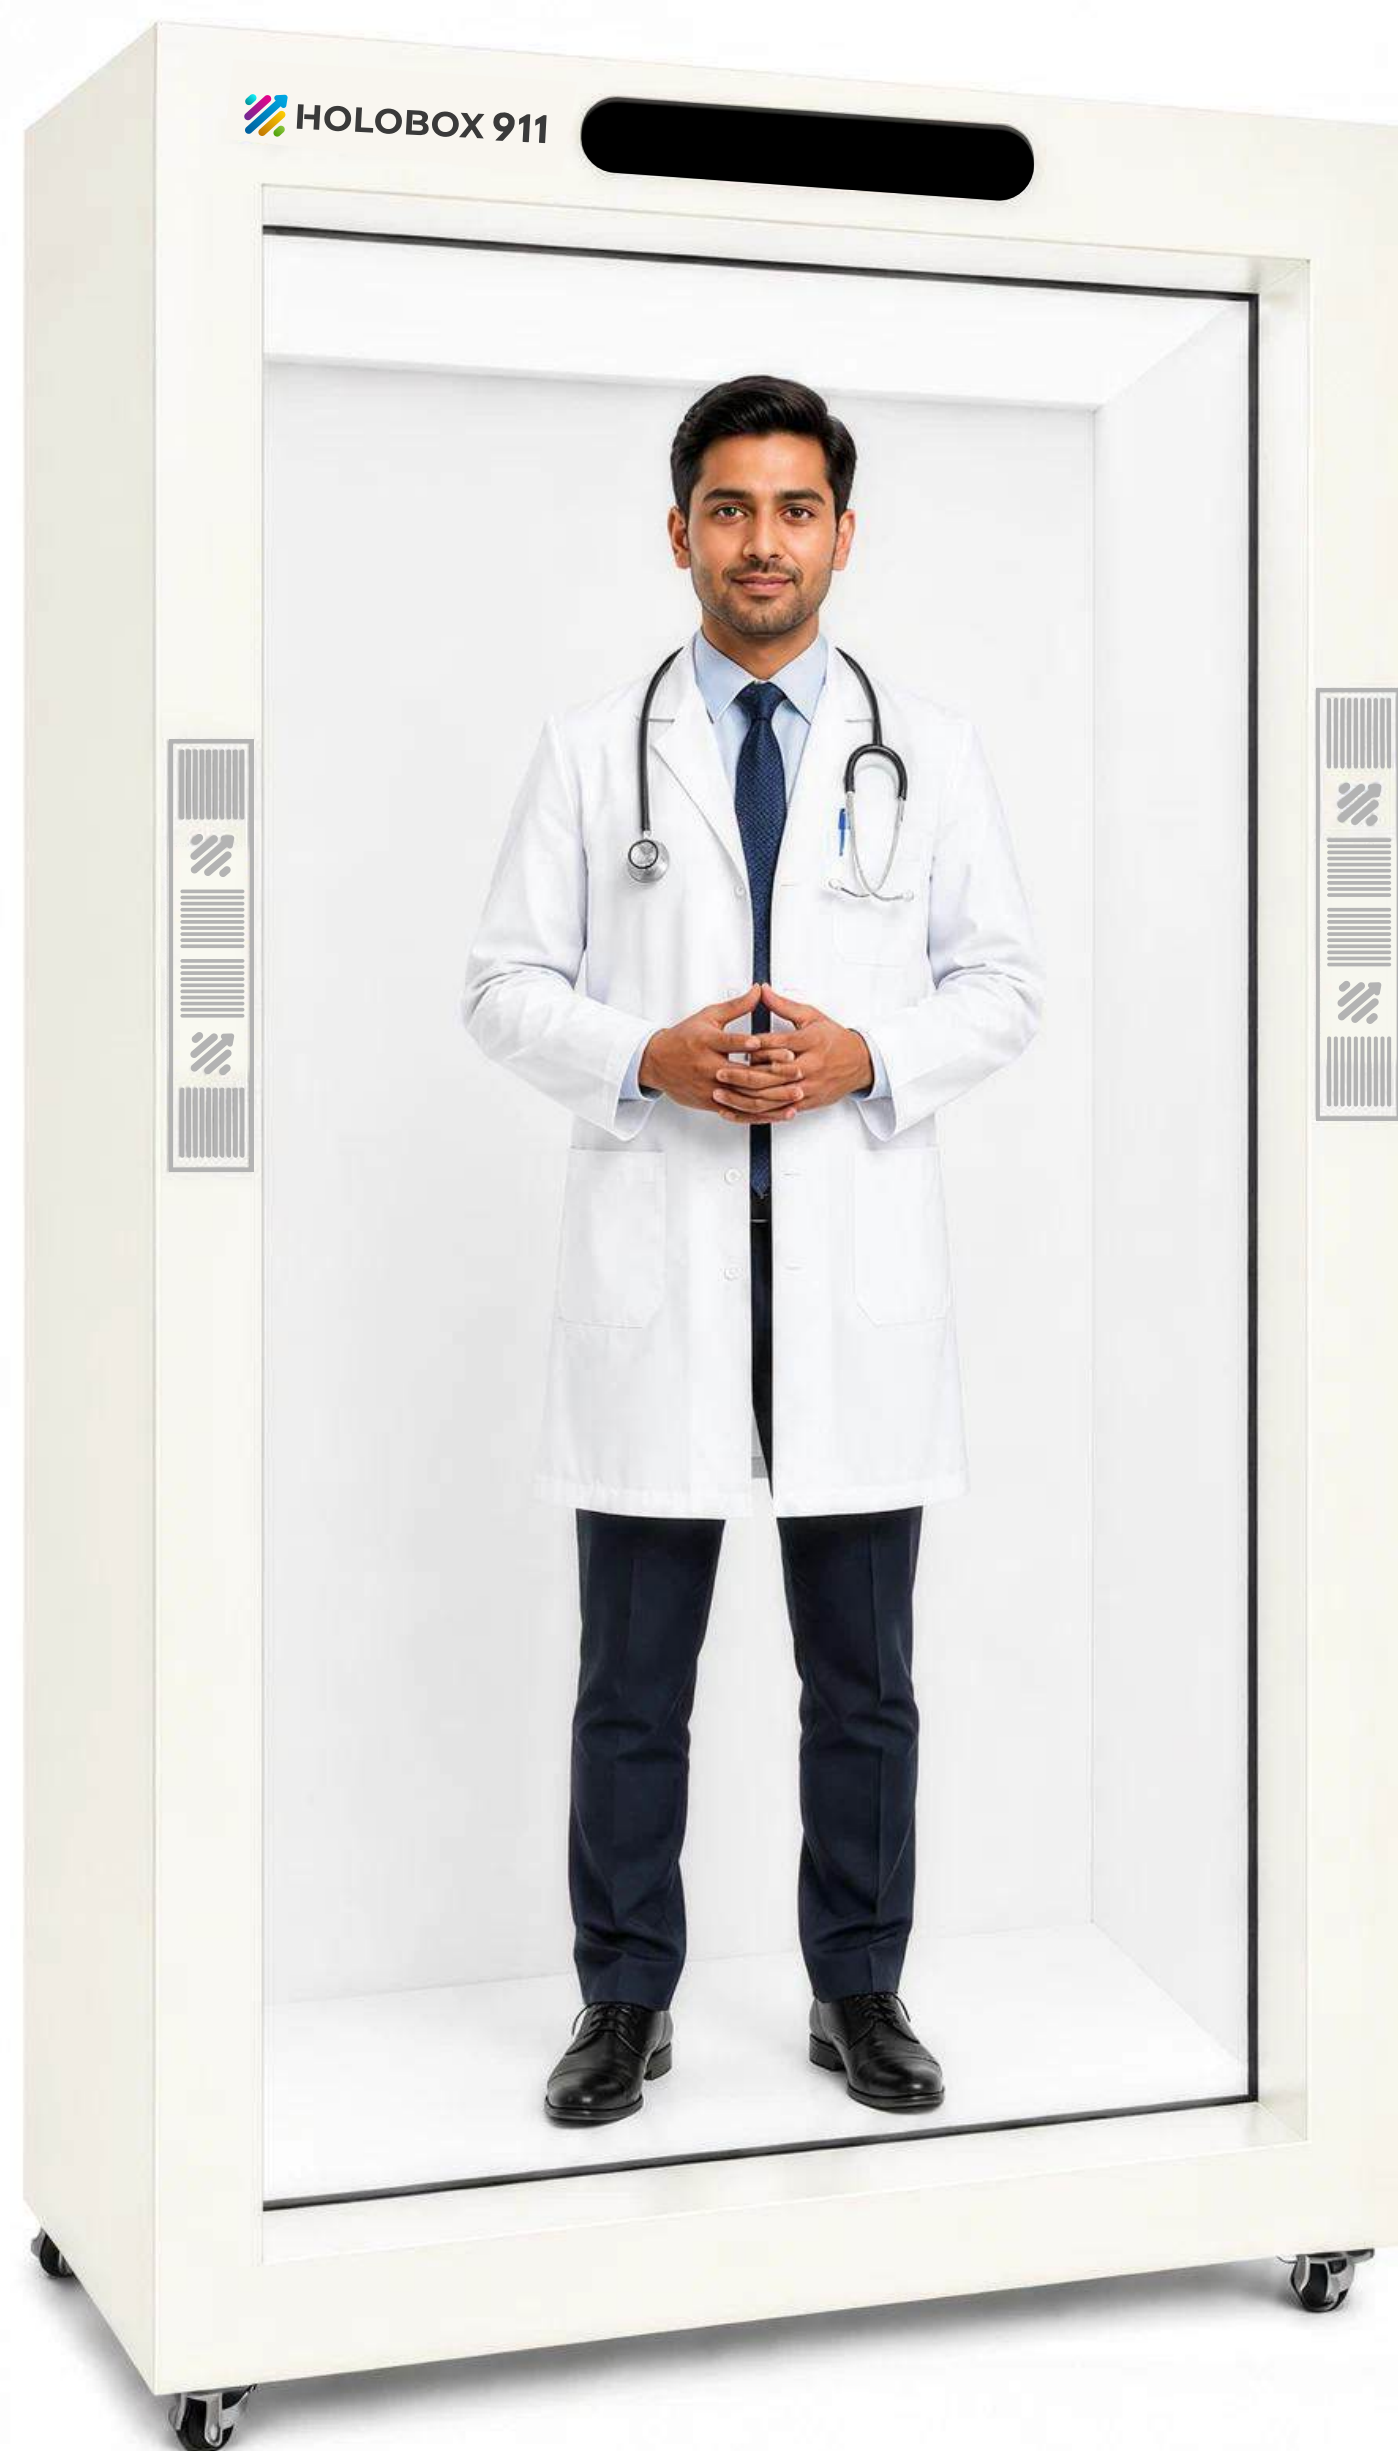

Aurum Gold

A warm, understated gold finish for spaces where the display is meant to feel like a statement.

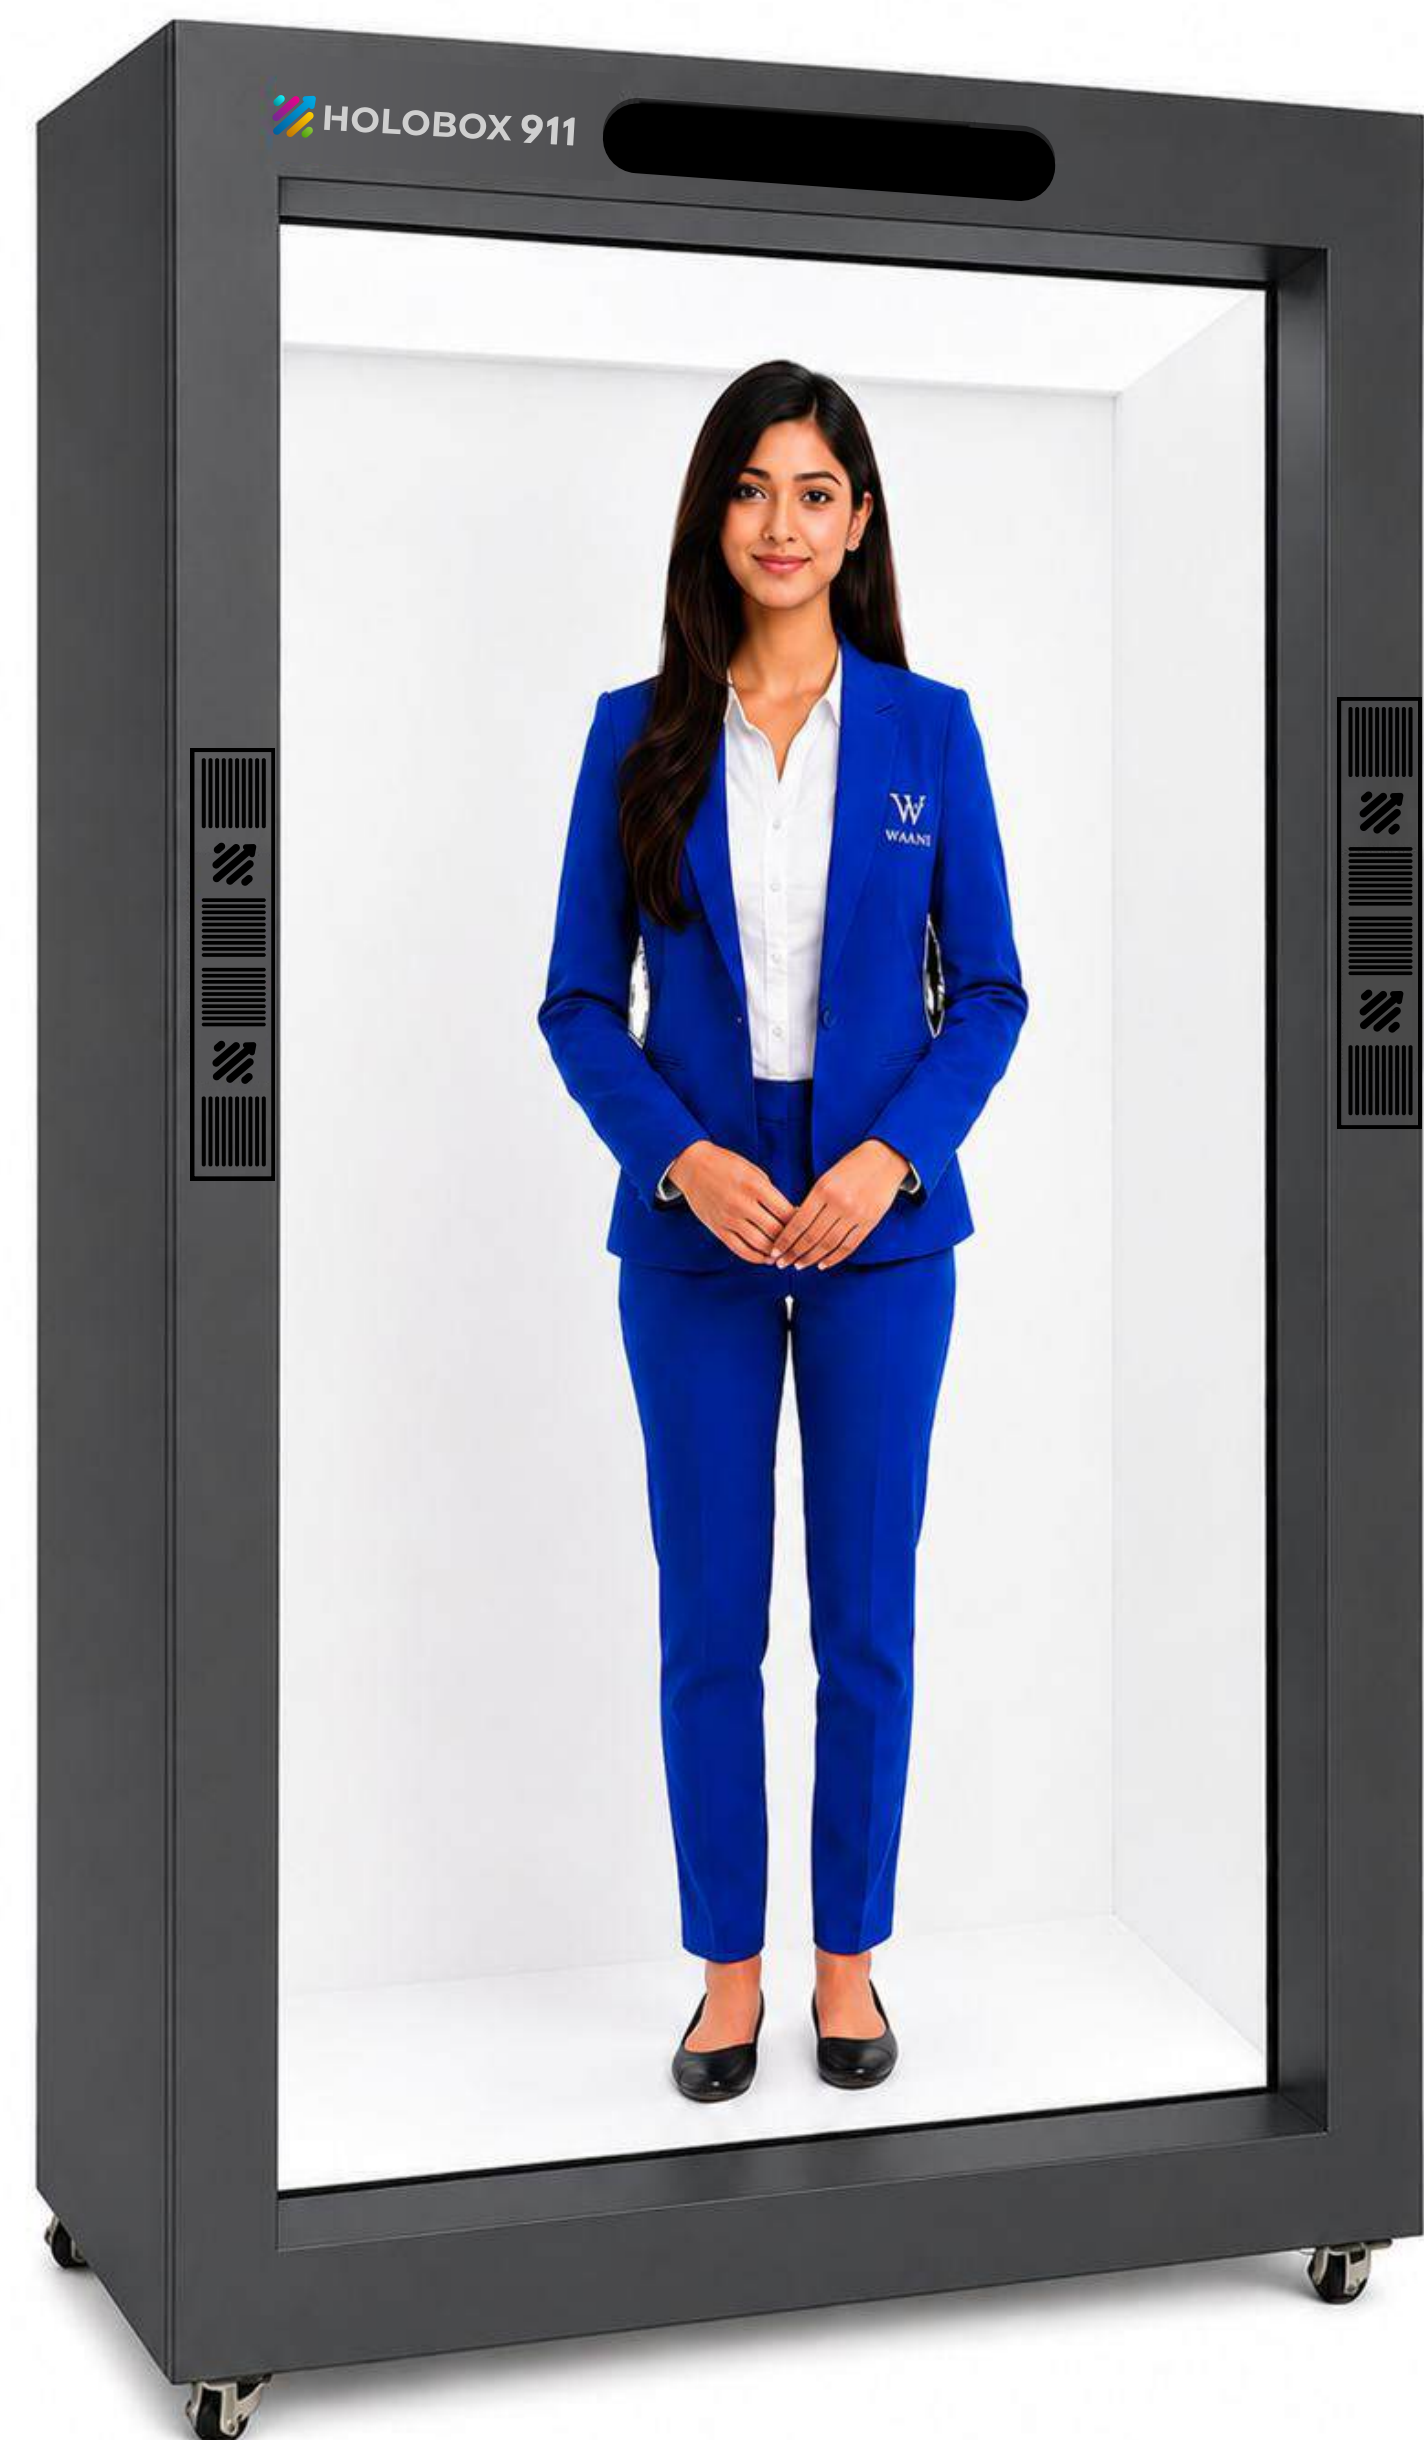

Platinum Silver

A cool metallic silver — modern, neutral, at any showroom or boardroom.

Gallery White

A clean, architectural white that disappears into premium interiors and lets the hologram lead.

Obsidian Black

A deep, confident black that frames the hologram in contrast and commands a room.

BUILT TO TRAVEL

Safety Case for effortless transport

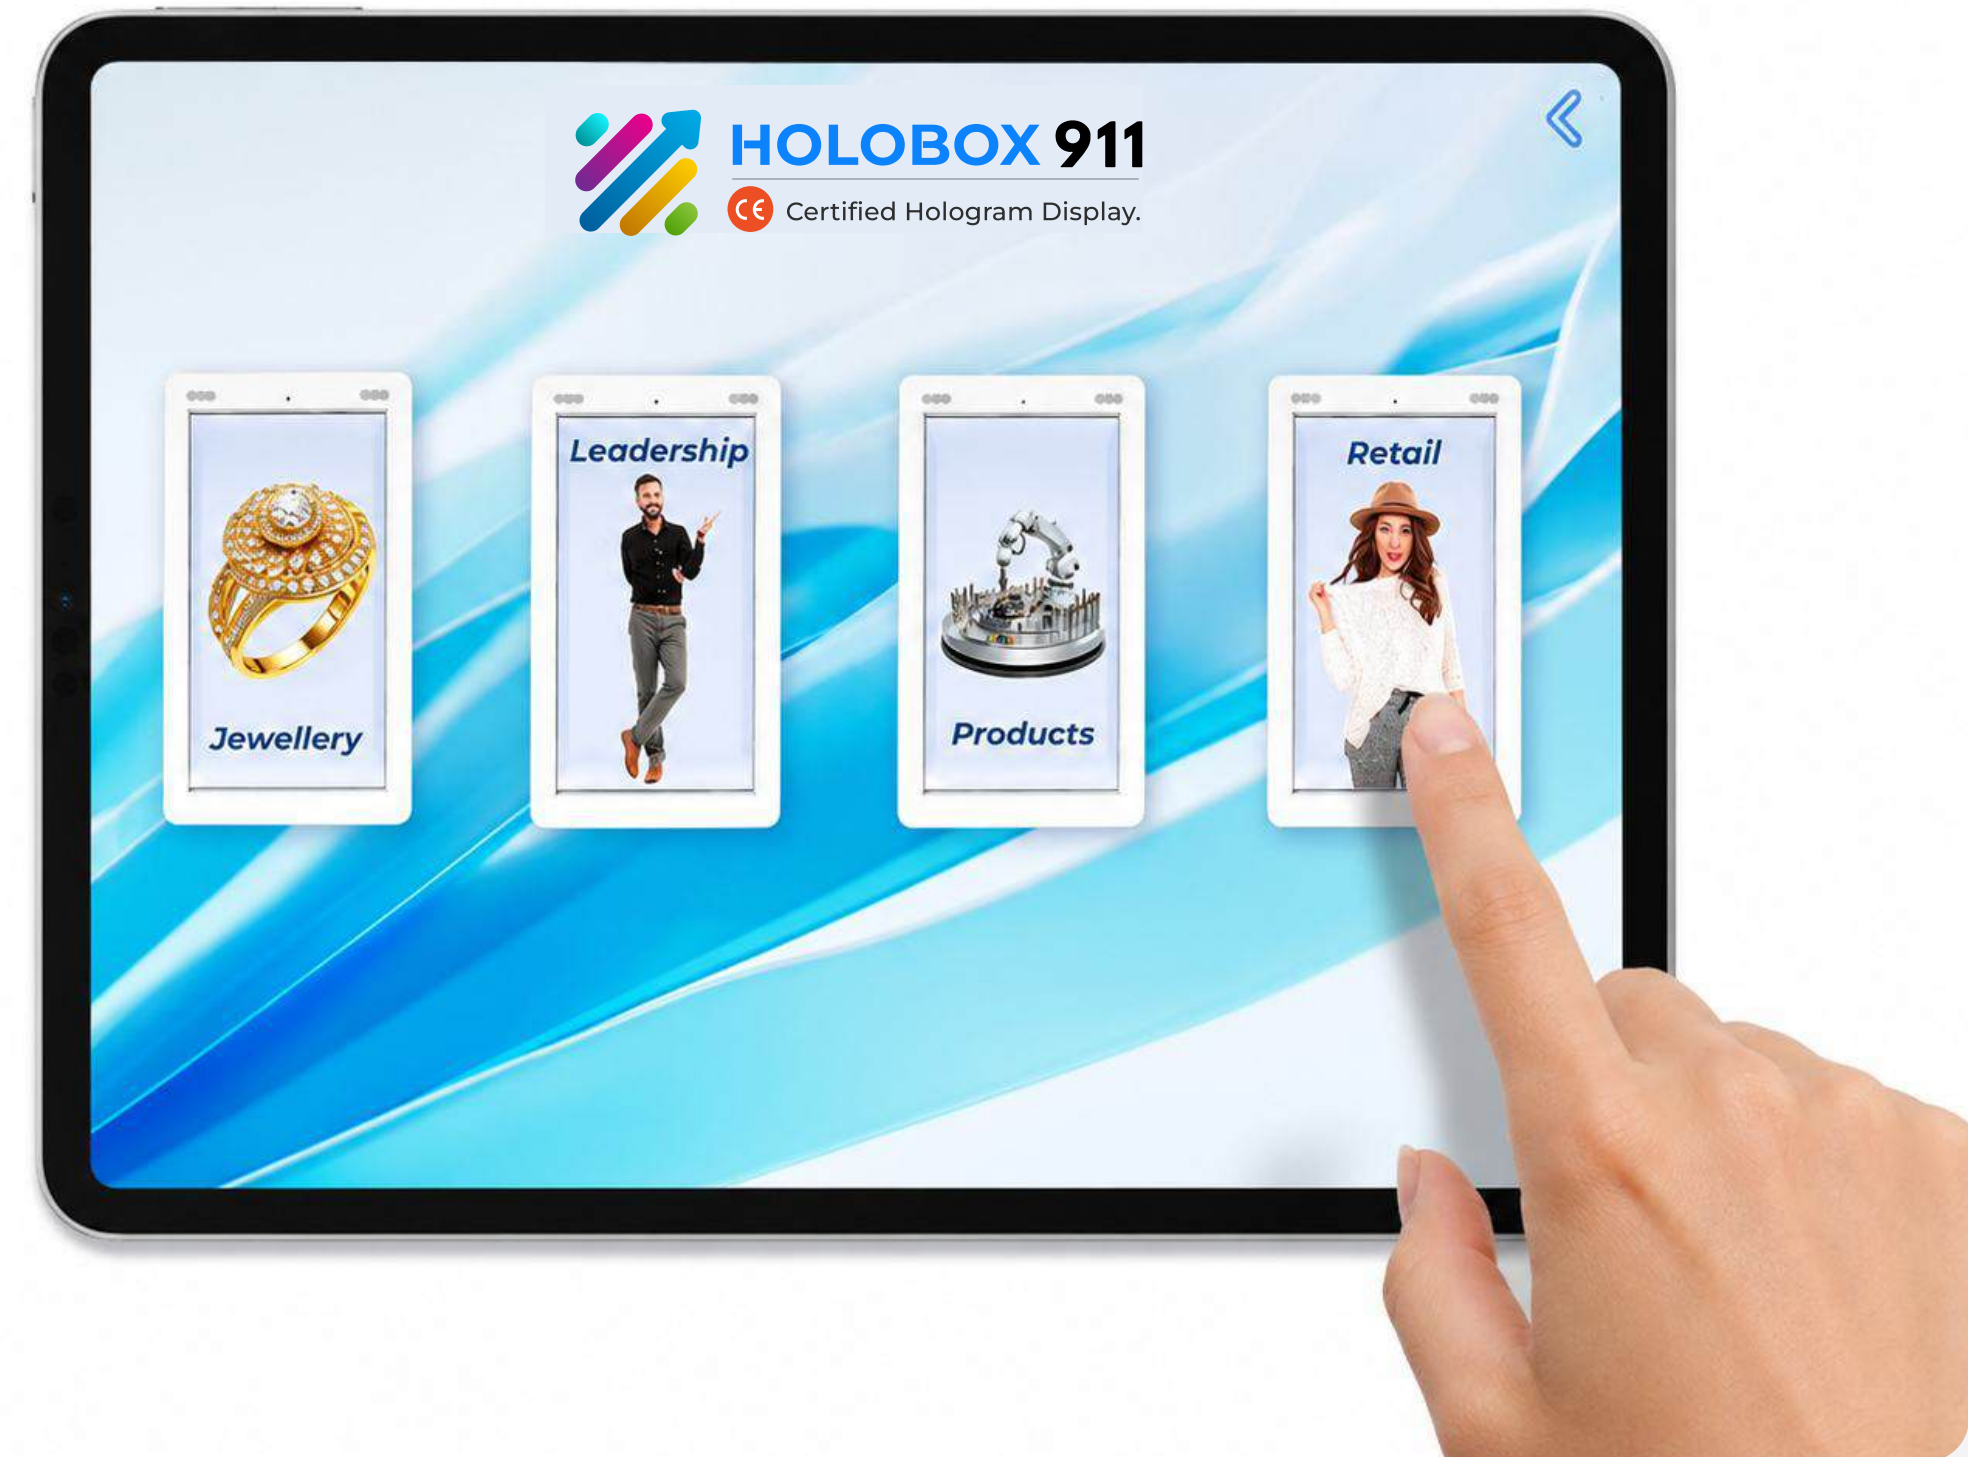

Every 7-ft HoloBox travels in its own purpose-built flight case — engineered to carry the unit safely from one location to the next. Wheel it out of the van, roll it across the floor, and stand it exactly where it needs to be. Built for the road, the showroom, the exhibition hall, and the boardroom.

FLIGHT CASE SPECIFICATIONS

Purpose	Custom-fabricated for the 7-ft HoloBox
Weight	Approx. 80 kg
Mobility	Two-side wheels for smooth rolling transport
Protection	Rigid construction, shielded in transit & storage
Fits	HoloBox 7-ft — 213 × 128.2 × 60 cm
Case size	228.6 × 149.86 × 71.12 cm

All-in-one-Box : App to manage content

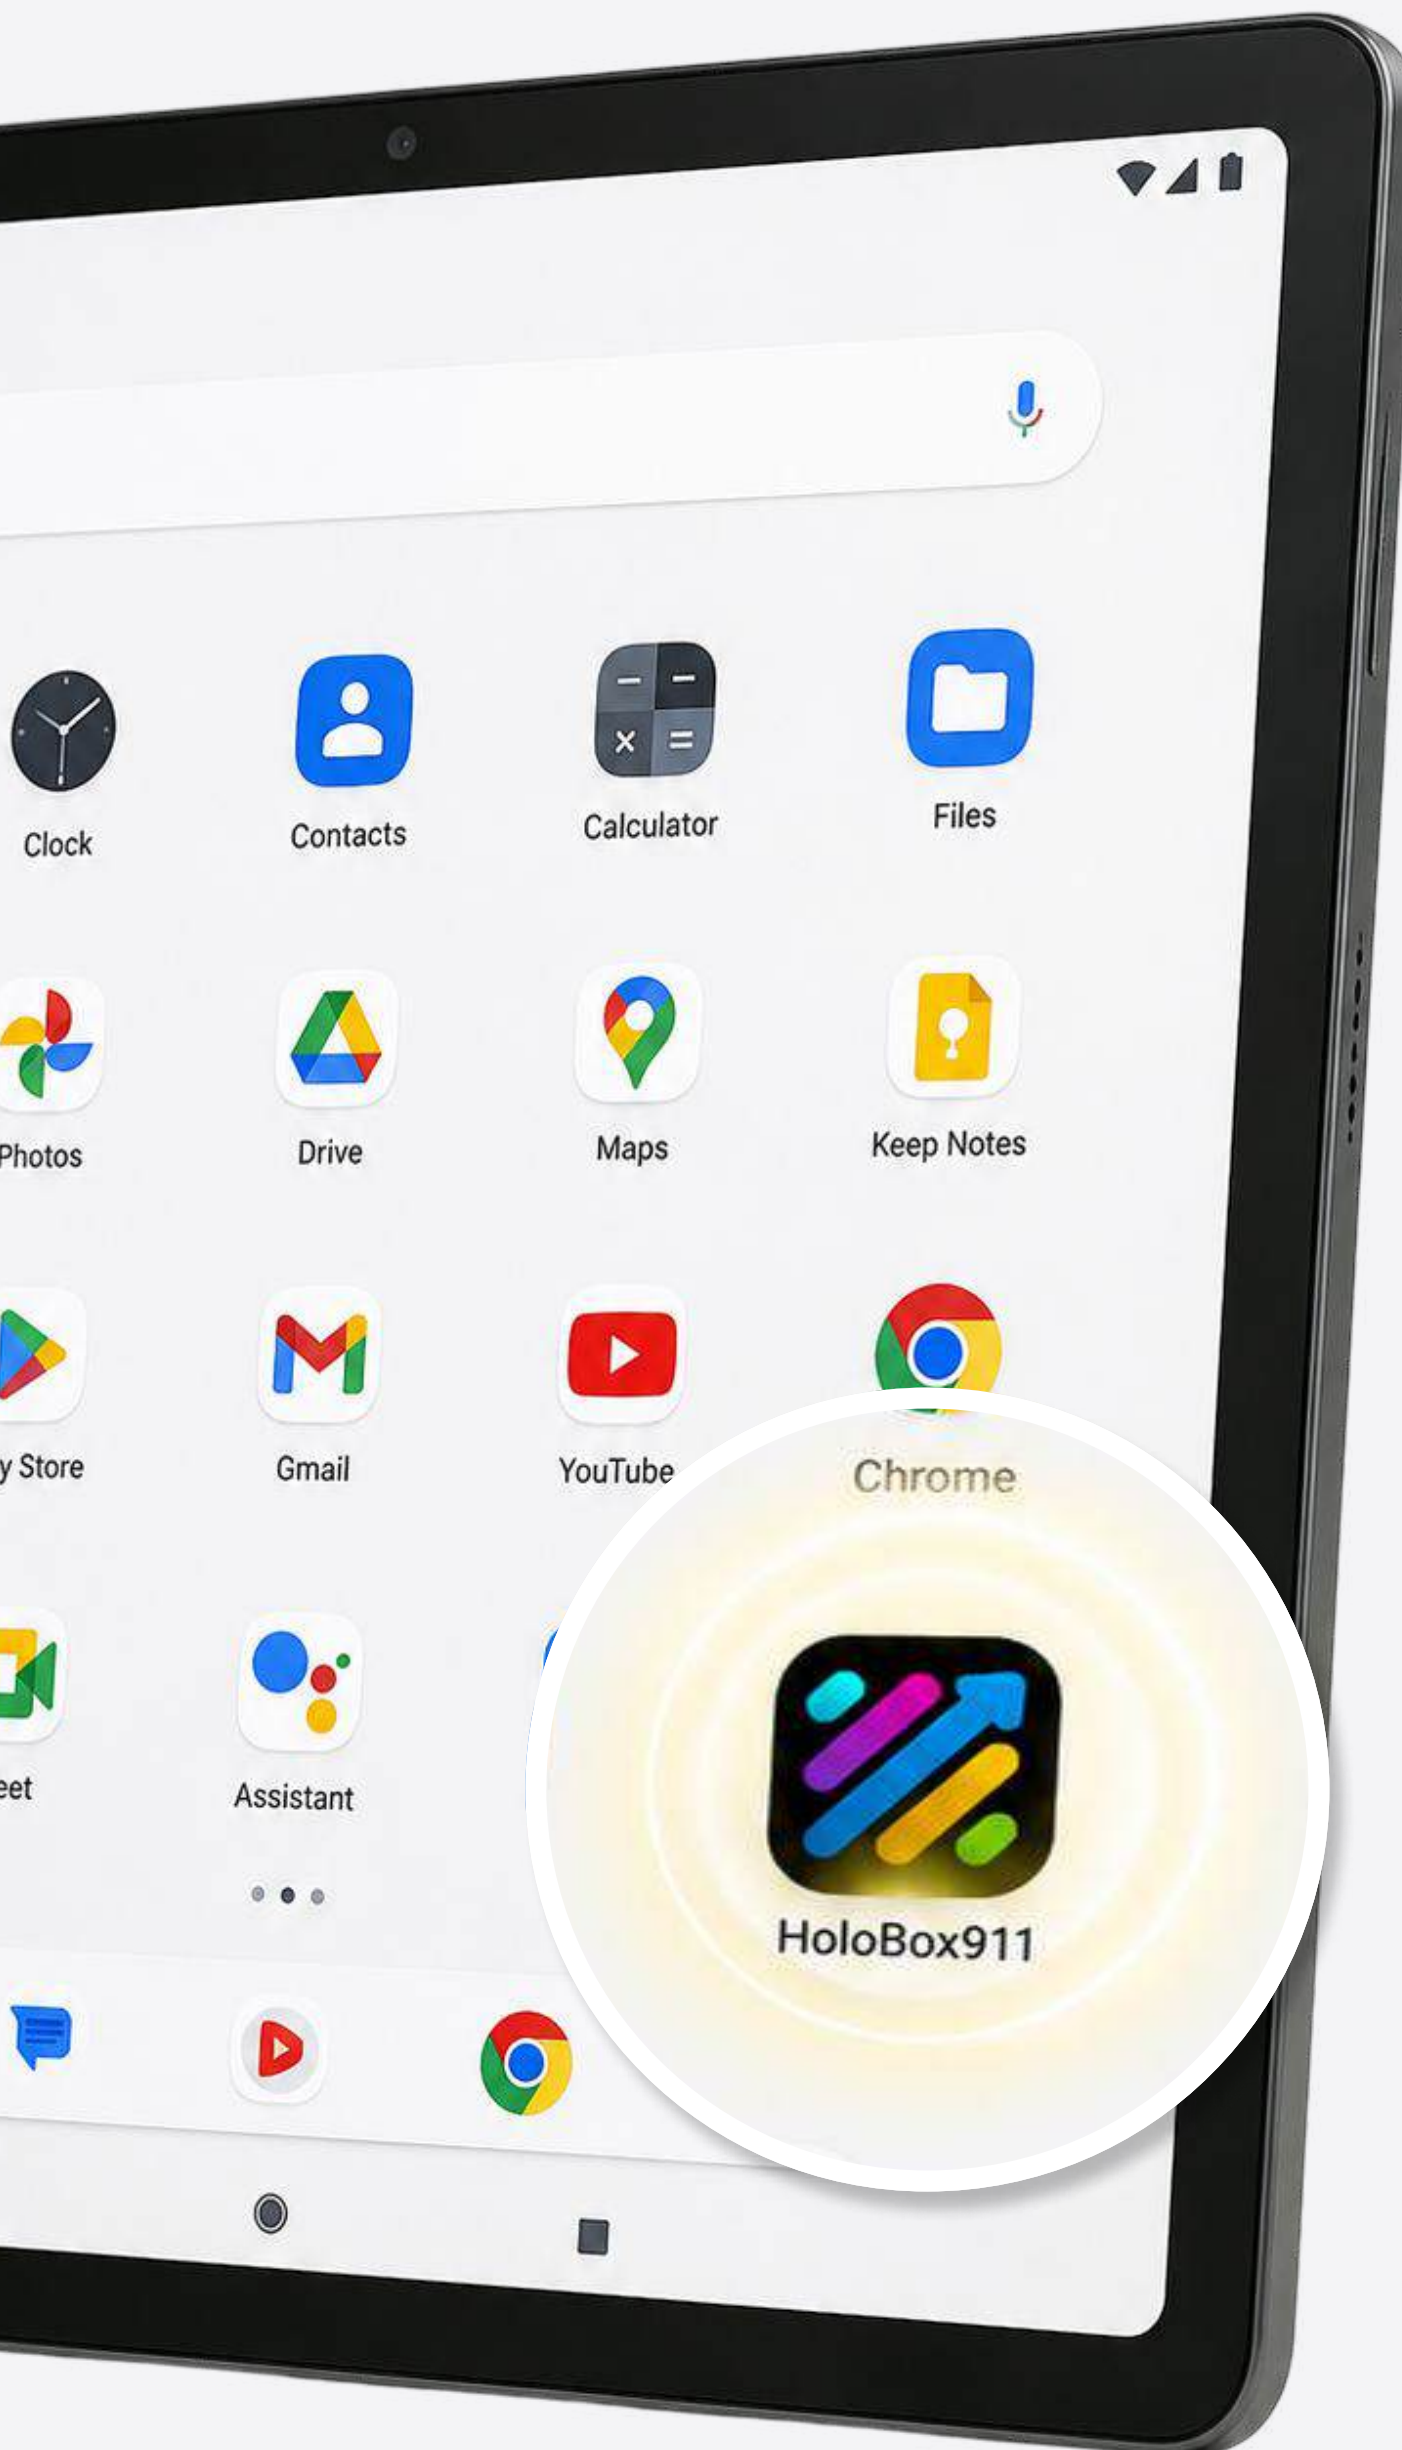

HoloBox 911™ is the companion application included with every unit — the single place to upload, update, schedule, and manage everything the display shows. Content changes in minutes. Management happens from anywhere.

INCLUDED WITH EVERY HOLOBOX

- ✓ Upload, edit, and delete content
- ✓ Monitor content deployment
- ✓ Exclusive HoloBox customer offers
- ✓ Manage playlists
- ✓ Access support and service requests
- ✓ One AI avatar, conversation-ready

What you get in the **App** at **No Cost**

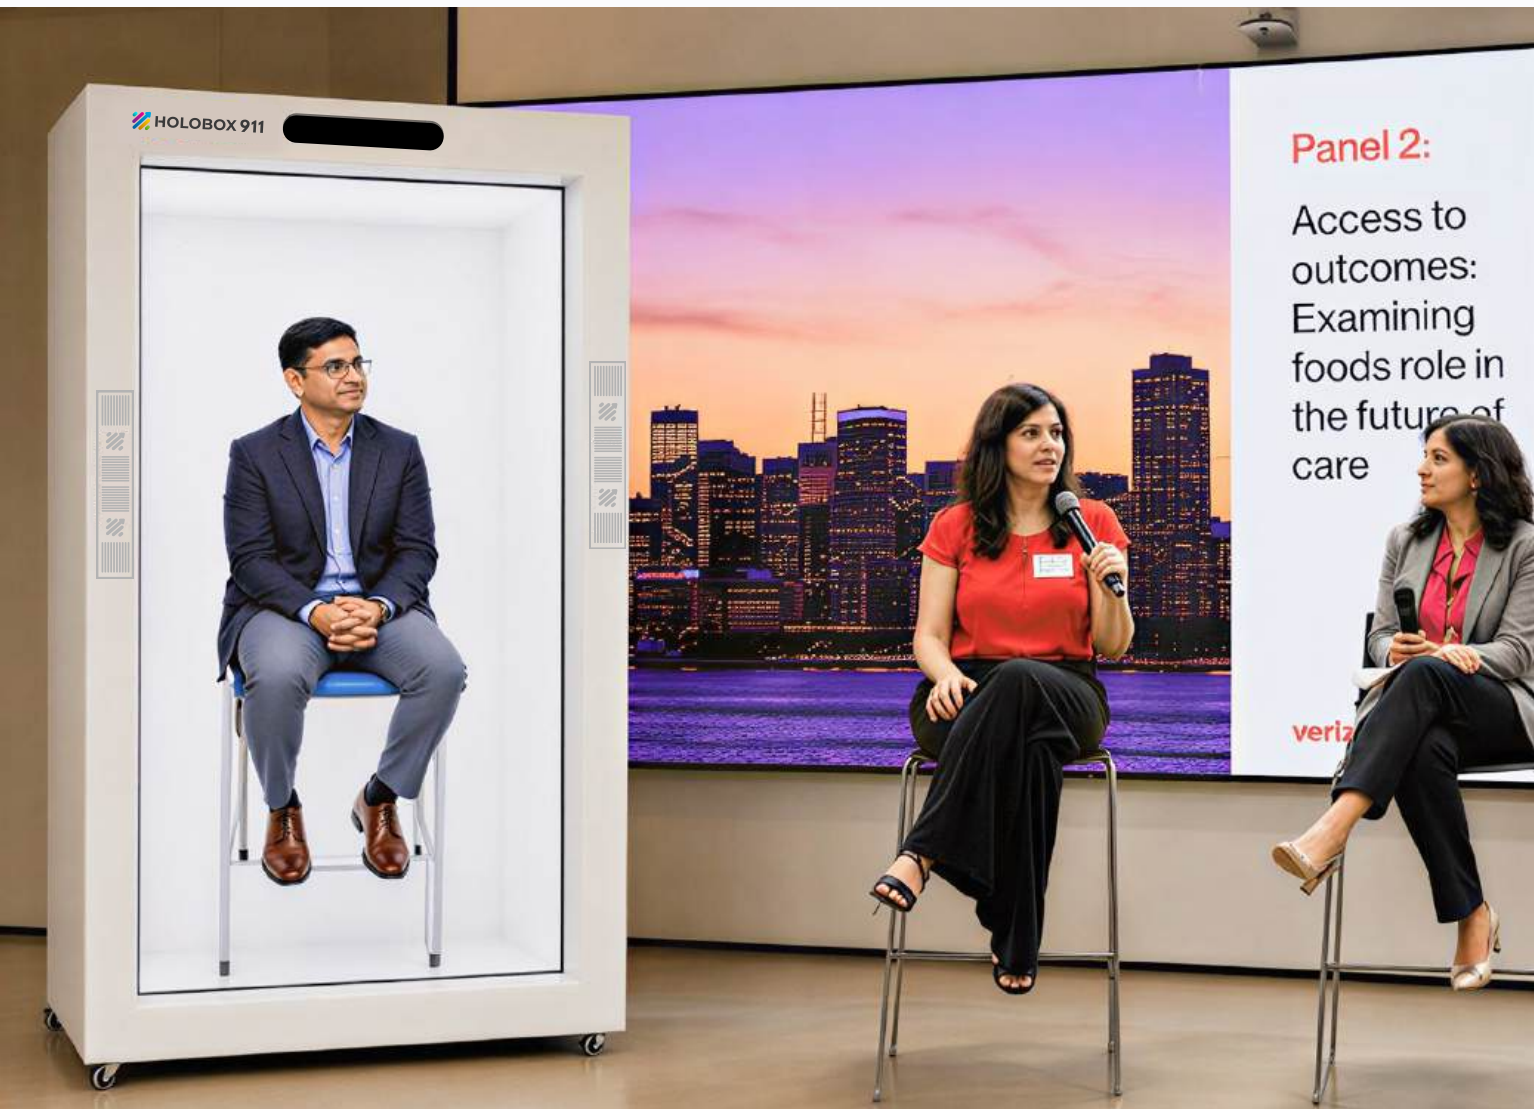

COMPLIMENTARY WITH EVERY PURCHASE - ONE TIME

- 01 HoloBox 911™ app — full content management
 - 02 1 Hour of live-streaming credit
 - 03 2 minute of leader / pre-recorded holographic video
 - 04 1 minutes of product showcase content using AI (up to two products)
 - 05 3 gesture-controlled interactive games, pre-loaded
 - 06 One AI avatar with built-in conversational intelligence(Open AI)- Up to 60 Mins
-

Custom games, bespoke avatars, and extended production available on request.

HoloBox911 Use Cases

01 LIVE Real-time Streaming

A speaker is captured against a clean backdrop and streamed into the HoloBox in real time — appearing as a life-sized hologram, wherever the audience is.

- Real-time streaming into the HoloBox
- LIVE presence from any location
- Minimal setup on the day

01 Pre-Recorded Leadership Message

Leaders appear as life-sized holograms, delivering their message without being physically present — recorded once in a studio, played back anywhere.

- No repeat shoots, no travel
- One recording, unlimited playback
- Works offline, no connection needed

02 Touch-Based Interactive Experience

Visitors touch the display to choose a question; the leader's hologram answers instantly — a controlled conversation that feels live.

- Consistent, controlled messaging every time
- Higher engagement through interactivity
- Insight into what audiences ask most

03 Interactive AI Avatar

A digital Avatar trained on your content or connected to Open AI to interact and engage your audience.

- Minimal input required
- Professional, corporate presence
- Cost-effective and scalable

APPLICATIONS

From the exhibition floor to the boardroom & Showrooms

Entrance of the exhibit

Positioned to stop attendees in their tracks and lift booth traffic.

Product demo zones

3D exploded views that make complex products instantly clear.

Brand activation area

A spot built for visitors to record the moment and share it.

Product launch

A futuristic 3D reveal that gives a launch its own gravity.

Corporate experience zone

A premier way to carry leadership and brand messages in reception spaces.

Training & HR pavilions

Onboarding, safety, and virtual presenters — brought to life.
