SUPPORTING STATEMENT

"I currently work at Fudges Cycles as Director of Operations; I joined in spring 2022 from Volvo and Polestar as a Project Manager of their European Spaces. During their climb to success, I have been part of many businesses, including Ferrari & Maserati; Rolls Royce; Aston Martin; Polestar and Volvo.

Ollie, as an individual candidate, stands out as a top performer. His excellent work ethic and attitude towards a pivotal project at Fudges Cycles motivate him to complete his work using the best possible approach with precise planning and cost reduction. Ollie is a hard-working individual who can apply his knowledge well to each task he is involved in. Excellent at working individually on solo and remote projects and becomes more of a leader with out-of-the-box ideas making him a key player in a team."
