PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

- The Sub-Fund is only suitable for investors who:
 - seek medium-term capital appreciation; and
 - are looking for a broadly diversified fund which invests primarily in fixed income securities and money market instruments with no specific industry or sectoral emphasis.

Further information

Refer to Annex 1 (A and L) of the Prospectus for further information on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a sub-fund of an umbrella unit trust constituted in Singapore. The Sub-Fund aims to achieve medium-term capital appreciation for the holders. The investments of the Sub-Fund will be broadly diversified with no specific industry or sectoral emphasis.
- Distributions (if any) may be declared in our absolute discretion and may reduce the Sub-Fund's NAV. Distributions may be made out of capital. For Classes C1, D1 (US\$-Hedged) and D2 (AUD-Hedged), we intend to declare quarterly distributions. All other classes are accumulating classes.

Refer to the "Basic information" section and Annex 1 (A and F) of the Prospectus for further information on features of the product.

Investment Strategy

- The Sub-Fund will invest in Singapore Dollar and foreign currency denominated fixed income securities, of up to 5 years tenure, and money market instruments.
- The foreign currency denominated fixed income securities will be fully hedged back to the Singapore Dollar except for a 5% frictional currency limit (to account for possible deviations from a 100% hedge), and will have investment-grade credit ratings of at least BBB- by Standard and Poor's or Baa3 by Moody's (or their respective equivalents). The investments are to be made after analysing historic and expected interest rate movements.

Refer to Annex 1 (B) of the Prospectus for further information on the investment strategy of the product.

¹ The Prospectus is available from us or the appointed agents or distributors, or accessible at <https://www.fullertonfund.com>.

² This refers to the earliest launched class that is offered under the Prospectus.

³ Figures relate to classes that have been incepted as at the stated date.

The Sub-Fund may also invest in FDIs for the purposes of hedging and/or EPM (namely, managing risks) without leveraging the portfolio.		
Parties Involved		
WHO ARE YOU INVESTING WITH? - The Managers are Fullerton Fund Management Company Ltd. - The Trustee is HSBC Institutional Trust Services (Singapore) Limited. - The Custodian is The Hongkong and Shanghai Banking Corporation Limited.		Refer to the "The Managers, Trustee and other parties" section of the Prospectus for further information on their roles and responsibilities, and what happens if they become insolvent.
KEY RISKS		
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the product and its distributions may rise or fall. These risk factors may cause you to lose some or all of your investment (including initial principal investment). <i>You should note that the NAV of the Sub-Fund has potential for high volatility due to its investment policies or portfolio management techniques.</i>		Refer to the "Risks" section and Annex 1 (I) of the Prospectus for further information on risks of the product.
Market and Credit Risks		
You are exposed to credit risk. - The issuer of securities, counterparties and custodians to transactions may default on their obligations. You are exposed to currency risk. - Exposure to currency risk may arise if your Units or the Sub-Fund's assets are not denominated in either the Sub-Fund's base currency or in S\$. We may hedge this risk and for any hedged class, we intend to hedge the class's currency against the Sub-Fund's base currency. Hedging may reduce but will not eliminate all currency risk. You are exposed to interest rate risk. - Generally, the price of fixed income securities rises when interest rate falls and vice versa. The longer the term of a fixed income instrument, the more sensitive it will be to interest rate fluctuations. You are exposed to political, regulatory and legal risk. - The Sub-Fund may be affected by international political developments, changes in government and taxation policies, restrictions on foreign investment and currency repatriation, and other developments in the laws and regulations of countries in which it may invest.		
Liquidity Risks		
The Sub-Fund is not listed and you can redeem only on Dealing Days through us or the appointed agents or distributors. - The size of the Sub-Fund's portfolio may make it less easy for the Sub-Fund to buy or sell securities in the Singapore fixed income markets.		
Product-Specific Risks		
You are exposed to derivative transactions risk. - The Sub-Fund may use FDIs. It may be negatively impacted if the FDIs do not work as anticipated. It may suffer greater losses than if FDIs are not used. FDIs are exposed to counterparty, regulatory and other risks. You are exposed to distribution risk – general. - The Sub-Fund may make distributions out of its capital (if income is insufficient). This may cause its NAV to fall, and amount to a partial return of your original investment and reduced future returns.

VALUATIONS AND EXITING FROM THIS INVESTMENT		
HOW OFTEN ARE VALUATIONS AVAILABLE?		Refer to the "Realisation of Units" and "Obtaining prices of Units" sections of the Prospectus for further information on valuation and exiting from the product.
The Sub-Fund is valued on each Dealing Day. To counter dilution and protect investors' interest, the Sub-Fund may apply a technique known as swing pricing or dilution adjustment. The issue and realisation prices of Units are quoted on a forward pricing basis and will generally be available within 2 Business Days after the relevant Dealing Day from us or our authorised agents, and may also be published on Bloomberg daily.		
HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?		
- You can exit the Sub-Fund on any Dealing Day by submitting a realisation form to us, either directly or through the agent or distributor from whom you subscribed for your Units. - First-time investors may cancel subscription of Units within 7 calendar days from date of subscription by submitting the Notice on Cancellation Form. You may do so without incurring the preliminary charge and fees stated above. However, you will be exposed to price changes in the NAV of the Sub-Fund since your subscription and will need to pay any bank charges, administrative or other fee imposed by the agent or distributor. - You will usually receive the realisation proceeds within 7 Business Days after your realisation request is received and accepted by us. - If you submit the realisation form by 5pm on a Dealing Day, you will be paid a price based on the NAV per Unit of the relevant class as at the Valuation Point. If submitted after 5pm on a Dealing Day, your form will be treated as having been received on the next Dealing Day. - Net realisation proceeds that you will receive will be realisation price multiplied by number of Units realised, less any charges. For example:		
1,000 Units Number of Units realised S\$1,050.00		
S\$1.05000 Realisation Price S\$0.00		
S\$1,050.00 Gross realisation proceeds S\$1,050.00		

⁴ Your agent or distributor is required to disclose to you the amount of trailer fee it receives from us.
