<b>MARKET AND CREDIT RISKS</b>	
<p><b>The Sub-Fund may be exposed to Emerging Markets Risk</b></p> <ul style="list-style-type: none"> <li>The Sub-Fund may invest in Emerging Markets which tend to be more volatile than mature markets and its value could move sharply up or down. In some circumstances, the underlying investments may become less liquid which may constrain the Investment Managers’ ability to realise some or all of the portfolio. <p>and there is the prospect of additional loss (or the prospect of additional gain) to the investor greater than the usual risks of investment.</p> <ul style="list-style-type: none"> <li>• Singapore investors should note that the Sub-Fund is not denominated in SGD and the Share Classes may not be denominated in SGD. Except the hedged Share Classes, the relevant Portfolio Manager does not intend to hedge against currency fluctuations between the SGD and that of the currency of account of the Sub-Fund and between the SGD and that of the currency denomination of the Share Classes. Singapore investors may therefore be exposed to this exchange rate risk.</li> </ul> <p><b>The Sub-Fund may be exposed to Interest Rate Risk and Credit Risk</b></p> <ul style="list-style-type: none"> <li>• The Sub-Fund’s underlying investments are subject to interest rate risk and credit risk.
