

Opioid abatement program planning worksheet

Political subdivision name:

Commitment

Which community partners have you engaged to help understand the needs of your community, develop a plan, and select opioid abatement strategies?

People with lived experience of substance use or overdose

Family members, friends of those with lived experience

Local health department

Social service providers, non-profits

Schools, universities

Faith-based communities

Behavioral health treatment providers (such as Certified Community Behavioral Health Clinics)

Prevention groups, coalitions

Government, elected officials

Public safety (police, fire, medical)

Businesses/employers, chamber

Other key persons or organizations needed for success

If you have not yet engaged any partners, consider inviting community representatives or community members to provide input and inform your planning efforts.

Have you established a steering or governance team for opioid abatement planning?

Yes

No

If yes, who is participating in your steering or governance team?

OPIOID ABATEMENT PLANNING WORKSHEET

How did you or can you ensure that your planning process reflects the diversity of your community, including the voices of people who are traditionally underrepresented?

Community forums, listening sessions

Community survey

Key informant interviews or focus group discussions with community members

Other — specify below:

Assessment

Which of the following have you gathered to assess the needs of your community and inform your planning?

Most recent community health needs assessment

Community/city/county strategic plan

Other school/community assessment or reports

Interviews or focus groups with community representatives

Population data from the U.S. Census Bureau, CDC, County Health Rankings, other

What information do you still need to identify opioid-related needs and concerns in your community, as well as existing services and resources?

Demographics of the community (e.g., race, ethnicity, age, sex, gender)

Cultures and languages spoken by the community

Socioeconomic factors (e.g., income, education, employment status, food insecurity, housing insecurity)

Community size, configuration

Available treatment services, including medication for opioid use disorder

Available early prevention services

Available screening/intervention services

Harm reduction/overdose prevention services

Prevalence of behavioral health conditions, problems (i.e. substance use disorder, overdose events)

Populations at risk or with a higher prevalence of behavioral health problems

Those in need of treatment, but not receiving treatment services

Barriers to treatment

Community problems related to unmet need (i.e. emergency department visits, calls for public safety services, arrests, substance affected children)

Other — specify below:

OPIOID ABATEMENT PLANNING WORKSHEET

If you identified information needs for your assessment and planning purposes, please refer to these publicly available data sources:

- [CDC Provisional County-Level Drug Overdose Death Counts](#): Data visualization of mortality data from the National Vital Statistics System, broken down by county
- [Oklahoma Statistics and Data Dashboards](#): Interactive data dashboards for substance use, treatment and other data points in the state
- [OSDH Drug Overdose Data Dashboard](#): Information about fatal and nonfatal drug overdoses in the state from 2017-2021
- [OSDH Injury Prevention Service](#): Fact sheets and data about substance use and overdose, broken down by substance
- [Oklahoma Prevention Needs Assessment](#): Biennial survey of Oklahoma students about substance use, mental health, and risk/protective factors

Planning

What priority needs did you identify through your assessment?

Which of these evidence-based programs, practices, and services have documented success in addressing the identified needs AND are approved purposes as stated in the grant requirements?

Motivational interviewing

Contingency management

Cognitive Behavioral Therapy

Medications for opioid use disorder

Screening, brief intervention, and referral to treatment (SBIRT)

Housing First

Permanent supportive housing

Recovery housing

Peer support services

Botvin LifeSkills Training

Good Behavior Game

Project Towards No Drug Abuse

Strengthening Families Program

Strategic Prevention Framework

Naloxone distribution and training

Post-overdose response teams

Other — specify below

OPIOID ABATEMENT PLANNING WORKSHEET

How will you prioritize which programs, practices, or services to implement with this funding?

Effort/impact exercise

SWOT (Strength, Weaknesses, Opportunities, and Threats) analysis

Readiness assessment

Community feedback

Other — specify below:

What entity will be responsible for implementing the selected programs, practices, or services? How will you monitor and support implementation?

What additional funding or resources can support this strategy? How will you coordinate opioid abatement grant funding with these additional resources?

What data will you collect to measure progress and outcomes?

For example, how will you track the number of people who received each of the evidence-based services you have selected to implement with this funding? What other changes or progress toward your stated goal do you expect to see and report to the funder and the community?

OPIOID ABATEMENT PLANNING WORKSHEET

What is your plan for sustaining your opioid abatement program after the two-year funding period ends? What resources and supports will you need?
