

## Patient Benefactor Opportunities: 2026

**Mission:** Needs Beyond Medicine is a Utah based nonprofit organization dedicated to reducing the burden of cancer on individuals undergoing treatment by providing financial assistance for non-medical expenses.

In addition to the Relief Program, the organization conducts community outreach and educational initiatives promoting early detection and cancer awareness.

**Vision:** To ensure every cancer patient, regardless of geography, has access to the vital resources they need to focus on healing. Core Impact Areas

### The Relief Program

- The Need: Cancer treatment often leads to "financial toxicity"—where basic survival costs become impossible to meet.
- The Action: We provide \$575 grants to adults in active treatment to cover rent, mortgages, utilities, and groceries.
- The Goal: Distributing 180+ grants annually to Utah residents in need.

### Educational Outreach

- The Action: We host at least 6 annual community seminars focused on cancer risk factors and early symptoms.
- The Impact: Empowering the public with knowledge to seek help early, when cancer is most treatable. All seminars are free to attend.

### Karen P. Brown Memorial Scholarship

- The Legacy: A \$1,000 annual scholarship awarded to nursing students who embody the compassion and dedication of Karen P. Brown.
- The Goal: Offsetting education costs for the next generation of healthcare leaders.

### Signature Fundraising Events

- canSURVIVE (November): Our signature photo gallery stroll and fundraiser celebrating survivor stories through professional portraiture.
- Karen P. Brown Relief Golf Tournament: A premier community event dedicated to funding the Relief Program and nursing scholarship.

### Relief Program Recipient thank you letter.

" I wanted to personally thank you for your gift of \$575 as a recipient of a Grant Award from the Relief Program. It wasn't something I was expecting, and it came yesterday on a day that we were actually having a friend buy us milk, butter, cheese, toilet paper and paper towels because we were out and wouldn't be receiving my husband's VA disability until this Friday. This was a huge blessing and I almost cried when I opened the envelope and pulled out the check."

Awareness for All. Education for Prevention. Relief for Cancer Patients.

## 2026 Benefactor Levels

### **Program Champion – \$75,000**

Impact: Supports the entire Relief Program for one full quarter

- Provides immediate assistance to approximately 94 cancer patients
