

God's Will For My Work

What is good about my work? (Creation)

How does the industry that I work in serve God's purposes? How does my business serve God and His creation (people, the earth, and local community)? How does my work make me a co-creator with God?

What is wrong with my work? (Fall)

How has the fall impacted the industry? What brokenness (problems, struggles, and ways that do not honor God) exists in the industry, local business, and even in my life in daily work?

What needs to change about my work? (Redemption)

How does my new life in Christ change me? What things do I need to change about how I work? What next steps do I need to take to align my daily work with God's will?

How can I join God in restoring what's broken in my work? (Restoration)

What are some practical ways I can care for my customers and coworkers as I lead them to a deeper relationship with Jesus? How can I help restore the culture — making workplaces, neighborhoods, and our city places of love and justice?
