About Us

Friends of UCBM supports **Università e Fondazione Policlinico Campus Bio-Medico of Rome (UCBM)**, a charitable institution that is centered on the belief of putting Catholic values of service into action through a "human-centered" approach. UCBM educates scientific and medical leaders to have a deep and lasting impact on people and society, which is shown daily in the education they provide to students and the care they provide at UCBM's medical and hospice facilities. For 30+ years UCBM has served as a leader in demonstrating how to effectively integrate science & technology with faith-driven values.
