BRIDGE

I'll testify how You carried me through
Every valley and victory plenty and few
I've seen how it all led me right back to You
I'm so thankful Jesus I'm thankful
For every moment when I felt my worst
How You called me by name picked me out of the dirt
I'll never get over how You loved me first
I'm so thankful Jesus I'm thankful

After all this time You're still good
After all this time I'll testify of Your grace
