Bio

With 2.5 years of programming and a year in graphic design, I blend technical expertise with creativity.

Now studying Design in New Zealand, I focus on crafting user-centered experiences that balance function and aesthetics.

Work Experience

01

Freelance Designer

As a freelance designer, I collaborate with clients to craft unique brand identities and design engaging websites that align with their vision.

02

Graphic Designer

Jarem Clinic (Bangkok)

As an in-house graphic designer, I collaborated with the marketing team to create engaging social media designs and infographics for the clinic.

03

Web Developer

Nexlabs, Soft Guide, AcePlus Solutions (Yangon)

As a web developer, I am part of the software and app development team to build websites and apps by developing APIs, managing data, and designing databases.

Education

01

Unitec Institute of Technology

Bachelor of Design and Contemporary Arts
