NOTE 1 – NATURE OF OPERATIONS AND GOING CONCERN

Stable Infrastructure Inc. (formerly NFT Technologies Inc.) (the “Company”) was incorporated in the province of British Columbia on March 1, 2016. The Company changed its name from 1066666 B.C. Ltd. to NFT Technologies Inc. on March 18, 2021. The Company’s head office is located at Suite 202, 1965 West 4th Avenue, Vancouver, BC, V6J 1M8. The Company’s common shares were delisted from Cboe Canada Inc. (formerly NEO Exchange Inc.) effective November 1, 2024. As a result, the Company is now a venture issuer under National Instrument 51-102. Effective August 20, 2025, the company officially changed its legal jurisdiction and relocated its head office to Ontario. Pursuant to the Articles of Amendment, on September 4, 2025, the Company changed its name from NFT Technologies Inc. to Stable Infrastructure Inc. The change of the name does not affect the legal continuity of the Company.

The Company builds and supports projects that drive Web3 and stablecoin adoption. The company’s enhanced focus on AI, stablecoin infrastructure, and Web3-driven solutions aims to increase consumer engagement, upgrade existing and discover new business models.

Going Concern

During the six months ended June 30, 2025, the Company incurred a net loss of \$328,578 and negative cash flows from operating activities of \$138,820. As at June 30, 2025, the Company has an accumulated deficit of \$19,248,147. Currently Company is not generating revenue, and the management is carefully monitoring cash outflows and seek additional sources of financing to ensure continued operations.

These condensed interim financial statements do not include any adjustments to the classification and amounts of assets and liabilities that may be required should the Company be unable to continue as a going concern. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. These conditions indicate the existence of material uncertainties that may cast significant doubt about the Company’s ability to continue as a going concern. Although the Company has been successful at raising funds in the past through the issuance of securities and obtaining loans, it is uncertain whether it will be successful in doing so in the future or at terms that are acceptable to the Company.

NOTE 2 – BASIS OF PRESENTATION AND STATEMENT OF COMPLIANCE

a) Statement of compliance

These condensed interim financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting (“IAS 34”). The condensed interim financial statements do not include all of the information required for full annual financial statements and therefore should be read in conjunction with the audited annual financial statements of the Company for the years ended December 31, 2024 and 2023, which have been prepared in accordance with International Financial Reporting Standards (IFRS).

These condensed interim financial statements were approved by the Board of Directors for issue on November 14, 2025.

b) Basis of presentation

These condensed interim financial statements have been prepared on a historical cost basis except for certain financial instruments that have been measured at fair value. The material accounting policies, as disclosed, have been applied consistently to all periods presented in these condensed interim financial statements. All balances presented are expressed in Canadian dollars.

These condensed interim financial statements are presented in Canadian dollars, which is the functional currency of the Company.

NOTE 3 – USE OF JUDGEMENTS AND ESTIMATES

In the application of the Company's accounting policies, management is required to make judgments, estimates, and assumptions that affect the carrying amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses for the periods presented. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant, the results of which form the basis of the valuation of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimate is revised if the revision affects only that year or in the year of the revision and future years if the revision affects both current and future years.

NOTE 4 – MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies used in preparing these Interim financial statements are unchanged from those disclosed in the Company's audited annual financial statements for the year ended December 31, 2024.

The accounting policies have been applied consistently by the Company.

Forfeited	—	—
Balance – June 30, 2025	3,674,000	0.31

At the initial recognition date, the Company fair valued the options using the Black-Scholes option pricing model with the following weighted average assumptions:

Stock price	\$0.04 to \$0.11
Expected life (in years)	1 to 5
Expected annual volatility	110%
Expected dividend yield	0%
Risk-free interest rate	2.90% to 4.49%
Expected forfeiture rate	0%

During the period ended June 30, 2025, the Company recorded share-based compensation expense of \$nil (2024: \$nil) in the statement of loss and comprehensive loss. The Company made a judgment on the expected annual volatility used in the Black-Scholes calculation due to the early stage of development of the industry and wide swings in values of digital assets and NFTs that the Company works with. Stock options outstanding and exercisable as at June 30, 2025 are as follows:

NOTE 9 – FINANCIAL INSTRUMENTS

Fair values

When measuring the fair value of a financial asset, a financial liability and a digital asset, the Company uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs in the valuation techniques as follows:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Capital and Risk Management

The Company’s objective and policies for managing capital are to safeguard its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. The Company manages its capital structure and makes changes based on economic conditions, risks that impact the operations and future significant capital investment opportunities. In order to maintain or adjust its capital structure, the Company may issue new equity instruments or raise additional debt financing. The Company is exposed to a variety of financial risks by virtue of its activities: market risk, interest rate risk, liquidity risk, and foreign currency risk. The Board of Directors has overall responsibility for the determination of the Company’s capital and risk management objectives and policies while retaining ultimate responsibility for them. The Company’s overall capital and risk management program has not changed throughout the period. It focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on financial performance. The finance department identifies and evaluates financial risks in close cooperation with management. The identified risks are managed by implementing processes and controls that reduce the likelihood of occurrence through preventive measures.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to market interest rate risk.

The promissory note payable is measured at fair value using a discounted cash flow model. Given the lack of observable market inputs, the valuation is classified as Level 3 in the fair value hierarchy. Key assumptions include a discount rate of 12% based on management’s estimate of the entity’s credit risk and market conditions.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company generally relies on external financing or key management to provide sufficient liquidity to meet budgeted operating requirements.

NOTE 9 – FINANCIAL INSTRUMENTS (CONTINUED)

The following tables set forth details of the payment profile of financial liabilities based on their undiscounted cash flows as at June 30, 2025 and December 31, 2024:

June 30, 2025	Total carrying amount	Contractual cash flows	Less than 1 year	1 to 5 years	More than 5 years
	\$	\$	\$	\$	\$

Total	1,603,820	1,603,820	1,469,765	134,055	—

December 31, 2024	Total carrying amount	Contractual cash flows	Less than 1 year	1 to 5 years	More than 5 years
	\$	\$	\$	\$	\$
Trade payables and accrued liabilities	1,150,064	1,150,064	1,150,064	—	—
Promissory notes payable	123,934	123,934	123,934	—	—
Total	1,273,998	1,273,998	1,273,998	—	—

Taking into consideration the Company's current cash position, volatile equity markets, global uncertainty in the capital markets and increasing cost pressures, the Company is actively seeking new financing opportunities in accordance with its capital risk management strategy.

Foreign currency risk

Foreign currency risk is defined as the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company maintains financial instruments and enters into transactions denominated in foreign currencies, principally in USD and Euro, which exposes the Company to fluctuating balances and cash flows due to various in foreign exchange rates. The table below indicates the foreign currencies to which the Company has significant exposure as at June 30, 2025 and December 31, 2024 in Canadian dollar terms:

	June 30, 2025	December 31, 2024
	\$	\$
Cash	2,151	263
Trade payables and accrued liabilities	(260,742)	(262,350)
Promissory notes payable	(123,934)	(123,934)
Net monetary assets	(382,525)	(386,021)

Assuming all other variables remain constant, a fluctuation of +/- 5.0% in the exchange rate between CAD and USD would impact the net loss by approximately \$19,000 during the six months ended June 30, 2025 (June 30, 2024: \$13,000).

NOTE 10 – COMMITMENTS

On November 5, 2021, the Company entered into an advisory services agreement (the "ECMB Agreement") with ECMB Capital Partners Inc. ("ECMB"), pursuant to which the Company agreed to pay to ECMB, in exchange for investor relation services provided by ECMB during the term: (i) a corporate finance fee in amounts equal to one percent (1%) of the gross proceeds of the placement of equity or debt received by the Company as a result of introductions made by or transactions managed by ECMB; (ii) a strategic transaction fee in amounts equal to six percent (6%) of the gross proceeds received by the Company in connection to any strategic transaction initiated by ECMB, including, but not limited to, mergers, acquisitions, and strategic agreements; and (iii) an option (the "ECMB Option") to purchase up to 51,000 common shares in the Company following any public offering by the Company ("Potential Offering").
