- If the amount insured in your policy is less than the actual value at the time of loss (e.g. under-insurance), you are deemed to be self-insuring the difference. This average condition will apply in the event of a claim.
- Excess is the amount you have to bear before we indemnify you. This is applicable for certain perils, such as overflowing of domestic water tanks, windstorm, and flood claims
- Premium Warranty - The premium due must be paid and received by us within sixty (60) days from the inception date of this policy/endorsement/renewal certificate. Failure to pay the premium within this period, the policy is automatically cancelled. We shall be entitled pro-rated premium for the sixty (60) days which we have provided the coverage.
- In event of loss or damage that arises to a claim, you must immediately notify us in writing of such event.

7. Is there any guide in determining the estimated sum insured to be insured on building?

There is a Building Cost Calculator (BCC) that can assist you in determining the estimated sums to be insured for residential properties and is not a substitute for professional advice to be obtained.

Before using the calculator, kindly note the following:

- i) if any renovations have been made to your property, you are advised to indicate the amount (cost of renovation) in the box provided in the BCC.
- ii) if your property has unique or special design features and/or have extensive renovations and/or have complex structures affixed, you are advised to obtain professional advice for a more accurate assessment of your property.

The BCC is available on PIAM website <https://piam.org.my/building-cost-calculator-bcc/>.
