

Technical Data Sheet

VS5246 Peat VidaPlank Lite

Installation Methods

Fully Bonded	Yes (Recommended)
Nailed	No
Floated on Underlay	No
Over Underfloor Heating	Yes (Please see our underfloor heating guidelines)

Grading Criteria

Typically, character grade will include both heartwood and sapwood and allows a wider range of colour variation. Knots are larger and you should expect checks (cracks across the growth ring). Filler will be used, the colour of which is carefully selected to complement the wood rather than to match it exactly, and it may vary from batch to batch.

NB: The product grading criteria is an approximation. Please ask for details.

Product Details

Product Code	VS5246
Product Range	VidaPlank Lite
Construction	Engineered
Specie	European Oak
Grade	Character
Pattern	Plank
Process	Brushed
Finish	UV Lacquered Ultra Matt
Profile	Tongue & Groove
Edge Profile	0.6mm Micro Bevel Long Edge Only. Square Ends.
Top Layer	3mm Solid European Oak
Backing	Multiply
Thickness	14mm
Width	190mm
Length	2200mm (Split Lengths max 25%)
Residential Warranty	25 Year Wear Resistance
Commercial Warranty	5 Year Wear Resistance
Maintenance	Instructions and materials are available on our website https://vidaspace.co.nz/information/maintenance/

Technical Criteria

Origin	Europe
Responsible Certifications	Floorscore, Carb II, EPA Compliant
Janka Hardness Rating	1120 lbf (4,890N)
Formaldehyde emission	EN717-1 E1
ISTS Slip Testing	
AS/NZS 4586 Dry Test	Classification F, Mean COF 0.51
AS/NZS 4586 Wet Test	Classification X, Pendulum Mean 39 BPN
European reaction to fire classification	EN13501 Cfl-s1
Reaction to fire - Floors (CRF)	22kW/m2 Critical Radiant Flux (CRF)
Reaction to fire - Walls & Ceilings	Group 3 - To achieve Group 1-s fire rating apply Zone 92 intumescent coating or similar.

Masterspec

Work Section	6312VS VidaSpace Timber Overlay Flooring System

Sustainability & Provenance

To back our commitment to sustainable sourcing we have independent certification systems to verify they come from sustainably managed forests and sustainable methods are used. The Certifications apply to our VidaPlank Lite products, this detail will be found on the first page of our product datasheets under Technical Criteria – Responsible certifications. Any queries please get in touch.

E3/AS1 Amendment 7 Information

Timber flooring now needs to be submitted as an Alternative Solution, not an Acceptable Solution for use in kitchens and laundries when a building consent is required. This is a simple process and we are here to support architects and designers with the correct supporting documentation to assist in getting timber floors consented in kitchen and laundry areas.

When installing timber flooring in kitchens, laundries, powder rooms or any space that has sanitary fixtures or sanitary appliances and the build/renovation requires a building consent, to help create an impervious surface, please ensure the following are done:

- Apply a water resistant adhesive such as Marldon D3 PVA (or similar) to all joins of the planks 1.5m out from sanitary fixtures
- Once installation is complete, a flexible waterproof sealant (suitable for wood flooring installations) applied around the perimeter of the floor at least 1.5m out from sanitary fixtures

Note: sanitary fixtures and appliances now include kitchen sinks, dishwashers and washing machines

For further information regarding this refer to www.vidaspace.co.nz/changes-to-e3-as1-acceptable-solutions-timber-in-kitchens/ or get in touch at info@vidaspace.co.nz or 0800 119 388

Installation

We have over 15 floor build up guides so you can select the most fit for purpose installation method of your timber floor. See link to full range of options here www.vidaspace.co.nz/information/flooring-build-up-guides/ Contact one of our timber floor consultants to get assistance on selecting the best installation method. We supply the full range of installation accessories that are shown in the floor build up models. www.vidaspace.co.nz/contact-information/ We recommend all timber floors are installed by an experienced timber floor installer, please see our trusted installers list here www.vidaspace.co.nz/trusted-installer-network/

Care & Maintenance

Protect the future of your investment with the correct cleaning and maintenance regime. Residential and Commercial spaces will require different levels of care & maintenance. See link to our timber floor Care & Maintenance Guides – www.vidaspace.co.nz/information/installation/ Any questions? Get in touch with our timber floor consultants for advice or to reorder products www.vidaspace.co.nz/contact/

Warranty

All VidaSpace products must be installed by a competent installer/contractor who has the necessary skills and experience and can take individual site circumstances into account. VidaSpace warranty will apply only to projects which have been installed, handled and maintained to industry best practice and New Zealand Building Code requirements. It is the responsibility of the specifier to determine the product is suitable and compliant for the application. To view a copy of the full warranty, please contact our team.

Technical Support

Further information and technical support is available by contacting VidaSpace on 0800 119 388.

Special Note: 'In Australia and Europe the same general hierarchy of risk for surface flame spread for finishes is used. While differences exist in the small-scale or intermediate-scale fire test methods adopted in the different jurisdictions, the resulting classifications are considered to be sufficiently similar to the Group Number requirements of NZBC Clause 3.4(a) such that the results can be used directly for the purpose of compliance with Clause C3.4 of the New Zealand Building Code.
