COMPANY PROFILE

GenuineXs is a minority-woman owned, cyber-first security, engineering, and services partner helping enterprise organizations optimize their entire IT lifecycle. We're focused on providing financial and business efficiency to our clients by deploying and automating state-of-the-art networking, infrastructure, and cloud technologies using our proprietary "Full Technology Adoption Lifecycle" approach.

We are the preferred cybersecurity advisor and IT Integrator for the world's leading Healthcare, Media, Internet, and Financial Institutions in North America. Our mission is to unlock greater business potential for our clients as we proactively design, build, run and secure their critical multi-cloud, networking, and infrastructure environments

1. Diversified IT Professional Services and Specialized Contract IT Engineers
2. Cybersecurity Strategy, Solutions, Services, and Integration
3. Multi-cloud, Container & VM Support (Azure, AWS, Vmware, Guardicore, MSFT)
4. Cyber Transformation Strategy & Implementation
5. Cloud Migration
6. Network Infrastructure & Data Center Architecture/Delivery

KEY DIFFERENTIATORS

We have in-depth knowledge in multiple industry verticals, specifically Healthcare, Finance, Media, and Internet, allowing us to provide cutting-edge solutions, services, and customer success tailored to each of our client's needs.

We have centrally managed, geographically dispersed field teams, resources, and deployment models spread globally to support clients.

We analyze and optimize our client's current IT spend (Hardware, Software, Licensing, Support, etc...).

We lead our clients on a journey to transform their systems into well-organized, intelligent, automated service-oriented architectures

PERFORMANCE AND RESULTS

Proven experience managing large-scale IT projects for Mid-Market to Fortune 500 clients

Exceptional history and reputation in the industry

Holders of the fastest Zscaler integration on record (two weeks), which should have taken four months on average for a 10,000-seat healthcare client

Seamless extension of our clients' engineering teams, including on-site and/or remote operations

Heavy architecture & engineering expertise across OEM and SAAS partners

65+ senior level certified resources (internal & external) across OEM skill sets

Overseas network operations centers located in Dubai and India
