

Raidho X2t

25th Anniversary Edition

To mark 25 years of uncompromising acoustic artistry, Raidho Acoustics proudly presents the **25th Anniversary Edition X2t**. This exclusive celebration model is strictly limited to **100 pairs worldwide**, each pair individually **numbered** and adorned with a commemorative anniversary badge.

A Quarter-Century of eXtreme Performance

Since its founding in 2000, Raidho Acoustics has pushed the boundaries of sound reproduction—melding cutting-edge materials, Danish craftsmanship, and relentless research into each speaker. The X series (“eXtreme performance for the price”) has embodied the Raidho spirit, culminating in the latest generation ribbon-tweeter design and Tantalum-coated Ceramix woofers. The X2, in all its different versions, has always been one of the most popular models from Raidho selling close to 500 pairs in total. Now, in honor of our 25th anniversary, we’ve distilled the Raidho heritage into a truly collector’s item.

What Makes the Anniversary Edition X2t Unique

- Limited Edition Numbering**
 - Only **100 pairs** produced
 - Serial plate (1 of 100)
- Enhanced Performance**
 - Upgraded crossover for performance at the next level
 - Furutech High End terminals for improved signal transmission
- New Exclusive Finishes**
 - Walnut Burl high-gloss piano lacquer
 - Emerald Green Burl high-gloss piano lacquer
 - Midnight Blue Burl high-gloss piano lacquer
- Commemorative Packaging**
 - Certificate of authenticity signed by Raidho’s executive team

Proven Raidho Engineering, Elevated Ribbon Tweeter

Our in-house, planar-magnetic ribbon tweeter remains the centerpiece—11 µm foil, 20 mg mass, breakup beyond 82 kHz. A tweeter that has around 50 times less mass in comparison to conventional dome tweeters. In our humble opinion one of the best tweeters ever conceived, because it is very high resolving, but at the same time very musical. Not an easy feat to pull off.

Ceramix Woofers with Tantalum Coating

Dual 5.25" drivers utilize a sandwich construction that has an aluminum bass with ceramic and Tantalum coatings to push their breakup modes out to 15 kHz, offering exceptional stiffness without added mass—resulting in a pure midrange, a expansive bass and overwhelming scale. Finally, a woofer that can keep up with the exceptional tweeter.

2,5-Way Topology & Bass Reflex

The 2,5-way design combines the strengths of both 2- and 3-way systems. Dual woofers for extended low end and at the same time the mid/bass and ribbon for seamless integration. Proprietary internal vented port hides elegantly in the rear baffle with the possibility of tuning the bass in steps to fit the room.

Precision Crossover & Cabling

Point-to-point, hand and hard-wired crossover using Mundorf audiophile-grade capacitors, inductors, and resistors—components that rival speakers costing a lot more. The internal cabling, even in the crossover itself, is done with Nordost Norse cables ensures the purest signal path. A unique attention to detail, especially at this price level.

SPECIFICATIONS

Topology:	2,5-way bass-reflex
Drivers:	1 × Raidho Planar-Magnetic Ribbon Tweeter
	2 × 5.25" Ceramix Woofers with Tantalum Coating
Crossover Points:	130 Hz, 3.4 kHz (2nd order)
Frequency Response:	40 Hz – 50 kHz (±3 dB)
Sensitivity:	87 dB (2.83 V/1 m)
Nominal Impedance:	4 Ω
Recommended Amplifier:	50 – 300 W
Dimensions (W×H×D):	300 × 1,065 × 490 mm (incl. feet)
Weight:	23 kg each

Availability & Pricing

The X2t 25th Anniversary Edition is available from September 2025 through authorized Raidho Acoustics dealers.

- MSRP:** EUR 21,000 per pair (Walnut) EUR 23,000 (Emerald Green and Midnight Blue) (EU pricing)
- Limited to only **100 pairs** worldwide—each uniquely numbered.

About Raidho Acoustics

Founded in Denmark in 2000, Raidho Acoustics is dedicated to advancing loudspeaker engineering through in-house innovation and artisanal craftsmanship. All our drive units are actually designed and built in-house, by hand. Our products are recognized for their highly resolving authenticity, holography and musical coherence.

Raidho Acoustics is wholly owned by the Dantax Radio Group of Denmark.
Celebrate 25 years of sonic excellence with the Raidho X2t Anniversary Edition.
