

SURVIVORS

TECH RIDER 2026

A System

Top high quality 3 way (Line array, high pack + sub) flown or ground stack PA system to cover all audience seats and produce Non distorted 95 dBA at the venue,
Front field to cover first rows.
All output would be controlled from the FOH console Matrixes.

F.O.H

Mix position will be located 50-65 feet from center stage in the middle of the venue (off center) on ground level, with a clear view to stage.

Mixing desk – Midas M32, Behringer X32, Yamaha DM 7, Yamaha CL 1/3/5, Yamaha QL 1/5

Headsets * We have access to the headsets, receivers and cordless mics. We need to plug in to the venue board. We will bring batteries.

7x DPA 4066 beige color with Shure 4 pin mini XLR adapters

Wireless system

9x Shure ULXD \ Axient Recievers with Paddle Antennas and all necessary cables and adapters.

2X Shure handheld transmitters with beta 58A capsules.

7X Shure Bodypack's to be connected to the DPA 4066 Headsets

40x new AA Batteries

Projection

1x 16x9 feet projection screen or bigger that will be hang above stage at upstage center.

Bottom of the screen should be at least 6 feet high.

1x Full black curtain behind the screen.

1x powerful projector at least 6k lumens that will be projecting on the full screen and be positioned in a way that the audience will not block the projector.

Projector should be Getting Signal over 1 HDMI Cable from the FOH from our MacBook pro.

Staging – below is if the stage needs to be built.

-Stage size should be 30' wide x 20' deep x 24" high minimum

Cover with black carpet and black skirt

-black backdrop behind the stage to cover exposed walls.

Lighting

Please advise what kind of lighting is available to use so we can coordinate.
