

MANGOAPPS INTEGRATIONS

Replacing the tools your company uses today is not always an option. Instead, compliment your existing productivity, collaboration, and communication tools with MangoApps, and increase your ROI.

WORK SMARTER: MANGOAPPS + MICROSOFT OFFICE 365

Microsoft Office 365 tools are great for creating content. MangoApps is great for communicating and collaborating seamlessly. Together, they're great at nearly everything. Our deep integration with Office 365 is an out-of-the-box integration that blends the best of both, creating a collaborative and centralized hub for your employees.

With MangoApps integration of Office 365 your content is no longer trapped in separate application silos letting you:

- Single-Sign-On (SSO) into MangoApps using your company's O365 account.
- View, create & co-edit documents using O365 editor tools directly inside MangoApps.
- Attach and share O365 / SharePoint files in posts or status updates.
- Set and manage O365 file sharing permissions and document approval workflows.
- Deep search content created in O365 editor tools in MangoApps.
- Track and manage file versions with File Sync and File Version Management.
- Forward Microsoft Outlook emails into MangoApps as private messages or team posts.
- Integrate with Microsoft Azure AD to secure content & meet industry regulations/compliance.

MANGOAPPS + SLACK

MangoApps integrates with Slack to take their real-time messaging and team-based communication further. By integrating MangoApps, everyday Slack communications turn into actionable tasks and trackable work, resulting in successful teamwork.

- Turn Slack discussions and ideas into MangoApps projects and tasks.
- Coordinate, track, and manage projects, tasks, and crucial requests with ease.
- Get real-time notifications from Slack as feeds, and respond directly from within MangoApps.
- Create rich workspaces to match the membership and purpose of any Slack channel.

MANGOAPPS + GOOGLE APPS

MangoApps creates a Google-Integrated Intranet to make it productive for employees to access important files, data, and information all in one place.

- Single-Sign-On (SSO) into MangoApps using your company's Google Apps account.
- Create documents in Google Drive and share them in MangoApps status updates & posts.
- View Google Docs, Spreadsheets & Presentations directly inside MangoApps.
- Upload files in MangoApps & publish them to Google Drive.
- Forward Gmail emails into MangoApps as private messages or team posts.
- Get a 1-way sync of MangoApps calendar into your Google Calendar.
- Utilize Google Analytics integration to gain understanding of user flow & activities.
