

A modern ASL Signature Step Lift is installed on a staircase. The lift consists of a glass-enclosed platform with a stainless steel handrail and a stainless steel support structure. The staircase has dark grey metal treads and a stainless steel handrail. The background features a wall with horizontal wood paneling and large glass windows. The floor is made of light-colored stone tiles.

ASL SIGNATURE - STEP LIFT

Our signature step lift offers low energy consumption, an array of sizes and simple installation. With numerous bespoke-architectural finishing options to suit all environments our ASL signature step lift is a great access solution for your residential or commercial space.

SPEED: 0.10 M/S

The Eco home lift delivers a safe, smooth and comfortable user experience travelling between floors. In compliance with the Machinery Directive 200/42/UKCA

PIT & HEADROOM REQUIREMENTS

A minimal pit requirement. Minimum headroom of only 2000mm from the top floor level..

HYDRAULIC SCISSOR DRIVE SYSTEM

With no need for external tank or control box we offer the best most customisable solution for both the user and the property requirements.

RATED LOAD UP TO 500 kg

With a lifting capacity of 500 kg the ASL signature is suitable for all wheelchair access requirements.

TRAVEL UP TO 3000mm

Our wheelchair lifts can accommodate changes in level from 250mm to 3000mm. In commercial and domestic environments, Suitable for most residential applications, with fast and simple installation.

MEETS ALL LEGISLATION REQUIREMENTS

The Eco home lift complies with all the latest safety standards, type tested and UKCA marked.

WHEELCHAIR ACCESS

These low rise wheelchair lifts are a popular option for many architects thanks to their innovative design and extensive customization. This choice has a wide range of characteristics, including full stainless steel and glass finishes, and is used for transporting people who have limited movement.

MINIMALIST DESIGN THAT CAN BE FINISHED TO SUIT ANY SPACE

INDOOR AND OUTDOOR USE

With its durable and fashionable finishes, this platform lift is suitable for both indoor and outdoor use. It is also easy to operate, dependable, simple to maintain, and long-lasting.

ADAPTABLE TO COMPLEMENT HISTORIC BUILDINGS

Cathedrals, castles, stately mansions, abbeys, universities, theatres, elegant residences, hotels, churches, and blue plaque sites have all installed our ASL Signature step lift. These are just a few of the numerous historic sites where our platform has been specially designed to interact with the surroundings.

FUNCTIONAL IN ANY PUBLIC ENVIRONMENT

The ideal solution to overcome architectural barriers in public environments. It will ensure easy access for everyone.

LED lighting, improves the design of the product and helps to visualise its overall dimensions in the dark ensuring higher safety.

TRULY BESPOKE

The ASL signature step lift can be fully designed from scratch to sit effortlessly into any environment

BESPOKE PLATFORM LIFT WITH BESPOKE SURROUNDINGS

Less abled access does not need to be ugly. Our design team can assist with blending the change in level access solution with the surrounding space.

CONTROL PANELS

The control panels of our signature range are part of the design, they are not just to operate the lift but form part of the overall design aesthetic, whilst being fully compliant and easy to operate.

FINISHES

AVAILABLE FINISHES.

We provide robust powder coat finishes for the lift frames and guide covers and choice of flooring. They have hygienic, easy-to-clean matte and glossy surfaces. They offer a premium appearance.

STRUCTURE, FITTINGS & CONTROL PANEL FINISHES

Technical specification

Designed to meet the demands of Qualicoat Class 2, Interpon Précis Ultra Matt will maintain its appearance long-term having been designed to survive 5 years in South Florida without major change in color or gloss level.

PLATFORM FRAME & GATE POSTS FINISHES

POWDER COATING

The environmental choice, due to the fact that almost no pollutants are emitted into the air. Available on practically every available surface of the lift, we offer electric powder coating when a more specialised finish is required. Our powder coated surfaces are particularly durable since they can be more resistant to chipping, scratching, fading, and wearing than other finishes.

INSTALLATION

Installation is unintrusive and simple due to the little amount of required building work, the need for only a small pit, and the extremely low headroom requirements. In order to ensure that you can go about your normal business, we aim to complete the installation quickly and with the least possible disruption to your property or the neighbourhood.

QUICK AND EASY TO INSTALL

- The ASL signature can be installed in a short time: less than two days.
- The main components are pre-assembled supplied to simplify and speed up the installation process.
- The possibility of adjusting the travel +/- 50mm on site avoids small and annoying steps that you can find between the platforms and the finished floor.

NATIONWIDE INSTALLATIONS

We have been installing wheelchair access lifts of the highest quality to residential and commercial properties across the UK for decades. we take a personal approach to each project and ensure that all your requirements and ideas are reflected in the finished project with a swift and hassle free installation. Always following the UK's strictest quality and safety standards.
