Flip and Nest Functionality: Designed for Flexibility

Pirouette feature an intuitive flip-top design that allows tables to quickly transition between use and storage. The ability to nest tables efficiently helps maximize space while making reconfiguration simple for evolving learning environments.

Designed for Two-Sided Use

Pirouette's unique base design provides ample leg room for users on both sides of the table, creating a comfortable and functional experience from every seat.

Flexible Height Options

Available in fixed- and adjustable-height bases, Pirouette supports a variety of users, activities, and learning environments.

Versatile Configurations

With nine top shapes and multiple worksurface options, Pirouette adapts to classrooms, training spaces, innovation centers, and cafés.
