

Tucker Park Splash Pad

Hiawatha, Iowa

Project Description:

The Tucker Park Splash Pad is located at 101 B Avenue in Hiawatha, IA. Tucker Park also features two pavilions, playground areas, and a 0.3 mile walking trail.

HHE developed a plan that replaced the existing splash pad with a more expansive and accessible play area for the children of the community.

The HHE team collaborated closely with the City of Hiawatha and their selected vendors to ensure that the site elements worked efficiently and provided an attractive 3,200 square feet play area.

Additionally, HHE aided with the design of the sidewalks to and from the splash pad along with bench seating areas.

Status:

Completed 2025

Project Features:

- Accessible Splash Pad
- Bench Pads and Shade Canopy
- Sidewalks to and from the Splash Pad
- Led RFP Process to select Splash Pad Equipment Vendor
