ALLAN MILLER

How music speaks to us is one of the great mysteries of human experience. But to say that there is no way to explain the power of music is not to say that music is without meaning.

Robert Mann has a rare ability to speak about music eloquently and clearly, and guide us to the human qualities he finds in all great music. As a violinist and teacher he conveys in moving ways what he has discovered at the heart of the music he studies and performs.

Ultimately one cannot describe music—it speaks in its own language. But Robert Mann brings us ever closer to the meaning of music, which, though it remains a mystery, reaches us in the deepest part of our being.

We salute this great musician, teacher, and musical philosopher.

Allan Miller
