

## ***Environmental Policy***

Eltherington Group Ltd is an SME privately owned group of companies based on 1305 Hedon Road, Hull, East Yorkshire, HU9 5QD. The company manufactures cladding & glazing systems for variety of sectors, from the Leisure industry, Construction, to modular buildings manufactures. The EMS scope includes.

*The Manufacture of PVCu fenestration products, Pre-painted aluminium and other products for the Leisure, Construction and Modular Building industry.*

*The Manufacture of Architectural and Specialist Products in Aluminium, Steel, Copper and Brass.*

The Eltherington Group of Companies recognise the need to operate their business in a manner which reflects good environmental management practices, committed to balancing the business aims of the company with the need to protect both the local and global environment. To this extent the company has committed to EN ISO 14001:2015

The company is committed to complying with all relevant environmental legislation and other relevant legislative or regulatory requirements meeting and where possible exceeding expectations.

The Board is responsible for the environmental performance of the company and the Managing Director has signed this policy in acknowledgement of this overall responsibility.

### **The Company will:**

Commit to a continual programme of reduction & prevention of pollution, minimising its environmental impacts and developing a culture of continual environmental improvement. It will develop specific environmental management procedures to ensure environmental issues are considered at all levels of the Company.

Establish Environmental objectives and targets, supported by evaluation procedures to review its environmental performance annually as a minimum and incorporate environmental factors into its business decisions.

Commit to exploiting environmental opportunities by active resource management and waste minimisation.

Minimise the risks of environmental accidents through the formulation and adoption of appropriate risk management procedures and, in conjunction with appropriate authorities, it will ensure an emergency response capability to deal with accidental pollution.

Provide the necessary training and support to staff, to ensure that they are able to fulfil the commitments given in this policy statement.

Take appropriate action to ensure that suppliers and subcontractors uphold the commitments given in this policy statement.

Antony Eltherington  
Managing Director
