Timo UK[®]

Issue 01

The Osprey Group consists of three specialist companies: Osprey Healthcare, The Osprey Sling Company, and Timo UK. Each company is dedicated to providing high-quality solutions that improve mobility, safety, and comfort for individuals with varying needs. Our product range covers essential aspects of daily living, including Showering & Bathing, Toileting, and Moving & Handling, ensuring users and caregivers experience greater ease and independence. From innovative bathing systems and supportive toileting solutions to reliable slings and transfer aids, our products are designed with durability, functionality, and user well-being in mind. With a strong commitment to quality and innovation, The Osprey Group continues to develop solutions that enhance everyday life.

820BCA

Description:

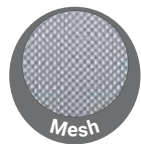

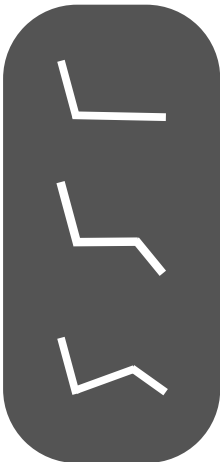

- Introducing the New 820 Adjustable Bath Cradle designed for ultimate comfort and flexibility.
- This innovative bath cradle fits most domestic baths, thanks to its adjustable brackets positioned at the hip and knee break sections.
- The 820BCA offers a customisable experience, allowing you to easily adjust the seat to a flat position or choose from multiple knee break angles.
- The backrest is equally adaptable, offering a range of positions from flat to 90 degrees, to suit the needs of any user.
- The 820BCA can also be adapted for use with the Stabilo Smart Range of mouldable support cushions, which offer the user even higher levels of support and comfort.
- The 820BCA can easily be folded down for compact storage or transport.
- Smooth contours to fit the body's natural shape.
- Tension adjustable mesh for optimum comfort.

Java Plinth

- ✓ 2 Year Parts Warranty
- ✓ 15 Year Frame Warranty

JAVA

Description:

- The Java Plinth has been developed to be used as support over the Geberit / Closomat range of wash dry toilets, for users who may otherwise struggle with their stability on standard toilets.
- The specially designed stainless-steel frame gives the plinth the ability to withstand much heavier weights, making it highly robust and the perfect alternative to our standard shower chair range.
- Available in 2 standard seat widths 23" and 33".
- Choice of 3 leg lengths for the perfect seat height.
- Choice of toilet or horseshoe seat.
- Rubber ferrule or bolt down leg options.

Sling & Hoist Compatibility Statement

The Osprey Sling Company makes slings for many hoist manufacturers, both in the UK and for leading European companies. Interchanging slings have been an issue for many professionals over the years and this is an understandable concern with the vast variety of both hoists and slings available. There may be reluctance by certain hoist manufacturers to accept the compatibility of other slings with their hoists, however, British and European standards BSEN10535, suggests that compatibility between hoists and slings is the responsibility of the sling manufacturer.

Quality Standards:

The Osprey Sling Company works within the requirements of the Medical Devices Directive. The requirements are that The Osprey Sling Company can produce documented evidence in line with Medical Device Directive 93/42EEC, to prove that they have tested all configurations of their sling in durability and fatigue on all potential hoists being used. All of our slings have been tested beyond the requirements set out in BS EN ISO 10535:2021, by a leading name in the industry and carry the CE Mark and UKCA Mark.

Public & Products Liability:

Our Insurers provide us with public and products liability cover to the sum of five million pounds in respect of injury or damage in the use of slings supplied by our company. Full insurance certificates are available on request.

Tailored Slings:

Osprey Sling Company has an experienced team of professionals designing our product range. If our standard range doesn't suit your client or their situation then we are happy to produce bespoke tailored alterations to suit your needs.

Hoists:

Slings supplied by the Osprey Sling Company have been tested and meet the requirements on the following hoists with a standard loop or clip fitting, coat hanger or 'T' spreader bar arrangement:

Oxford	Medi-Tec	Invacare with Pivot Frame
Lifetech	Ardoo	Westholme / Freeway
H.N.E	Prism Medical	Novacare prolift
Wessex	Arjo	OpenMed OT200
Beka Carlo	Nora Pro	Handicare
Molift	Verti Comfort	Invacare Robin
Guldmann	Taro	Verti with Scale
Invacare	Lifter Leno	
Days	Vista Plus	
Horcher	Vista	
Liko	Verti	
Chiltern	Porta	
Ergolet	Beka Nora	
Promed Elf	Promed Delta	
Carlo Comfort	Rebotec Lifts	

Should the hoist you are working with not appear on the list, please contact us and we will be happy to carry out an assessment on compatibility.

Bathing Sling

1C - 1B

2B

3B

✓ 2 Year Warranty

BS

Description:

- The Bathing Sling is based on the shape of our Deluxe Sling.
- The split leg design with a large aperture allows for easy access when washing and undertaking personal care.
- The Bathing Sling is made with a thin polyester material which dries much quicker than a standard padded sling. Other materials are available on request.
- Unlike the Deluxe Sling, the Bathing Sling has no padding or hyperlast, this prevents water retention when bathing.
- Chest band is included in the children's sizes, but is also available in other sizes on request.

Universal Sling

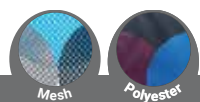

✓ 2 Year Warranty

US

Description:

- The Universal Sling is a popular design chosen for small adults and children to aid quick and easy transfers.
- Its full body split leg design offers high levels of support and ease of transferring.
- The padded legs with hyperlast material makes the Universal sling easy to fit and comfortable to use.
- The Universal Sling comes as standard polyester material, but other materials are available on request.
- Chest band is included in the children's sizes but is also available in other sizes on request.

Deluxe Sling

A

Hygeenie Sling

1C - 1B

✓ 2 Year Warranty

HYG

Description:

- Our Hygeenie sling is a superior alternative to a traditional toileting sling.
- The design enables the user to have their arms on the outside of the sling, with a large underarm cut out, leaving space so that the sling does not rise up under the armpit.
- The high shape on the sling at the lower section allows easy access for toileting.
- Fitted with loop straps to offer optimum positioning.
- Made with a wipe clean and water resistant Hygeenie Fabric, to facilitate multiple users in a hospital environment.
- Waist band included as standard across all sizes, and features velcro or a clip buckle.

Hygeenie Highback Sling

✓ 2 Year Warranty

HYGHB

Description:

- Our Hygeenie Highback Sling is a superior alternative to a traditional toileting sling.
- The design enables the user to have their arms on the outside of the sling, with a large underarm cut out, leaving space so that the sling does not rise up under the armpit.
- It has a higher back that enhances the support and comfort and gives better positioning when being lifted.
- The lower section of the sling allows easy access for toileting.
- It has an extensor strap to counteract any extensor spasm or involuntary movement.
- Made with a wipe clean and water resistant hygeenie fabric, to facilitate multiple users in a hospital environment.
- Waist band included as standard across all sizes, and features velcro or a clip buckle.

Valet Sling

1C - 1B

2B

3B

✓ 2 Year Warranty

VS

Description:

- The Valet Sling has been used for maximum comfort, ease of use and toileting efficiency.
- The unique design of the valet sling allows carers to adjust clothing easily via the 5 hand holes, while the client remains in the sling, reducing the need for multiple transfers.
- The valet aperture has been designed to give more access for personal care.
- The padded legs with hyperlast material makes the valet sling easy to fit and comfortable to use.
- The Valet Sling comes as standard in polyester material, but other materials are available on request.
- Chest band is included in the children's sizes, but is also available in other sizes on request.

Spacet

Polyester

ER Sling

✓ 2 Year Warranty

ER

Description:

- Our ER Sling was developed initially with the emergency services in mind.
- Designed for moving users with low or no muscle tone, from the floor to a wheelchair/ trolley in an emergency situation.
- This replaces the more conventional drag lift which can cause harm to both lifter & patient.
- This manual lifting sling can be used by 2-6 people to achieve a safe comfortable lift with robust rubber lifting handles.
- Check with moving and handling advisor for safe lifting loads.
- Manufactured in our red, wipe-clean, Hygeenie Fabric for ease of identification, with a non-slip backing to prevent the user sliding while being lifted.

Klip 2 Lift Sling

✓ 2 Year Warranty

K2L

Description:

- The Klip 2 Lift consists of a jacket, 2 leg sections and 2 shoulder lifting straps.
- The Klip 2 Lift is ideal for hoisting in and out of chairs and onto the toilet without the added need of fitting a sling.
- The jacket section is designed to be worn as a piece of clothing allowing for fast, easy transfers.
- The jacket comes as standard in an air-permeable lightweight Spacer Fabric material.
- Also available in Mesh Fabric for use in swimming pools.
- Double clip & hook/loop fastening for extra security.
- Detachable leg sections for fast and easy fitting.

Klip 2 Stand Sling

✓ 2 Year Warranty

K2ST

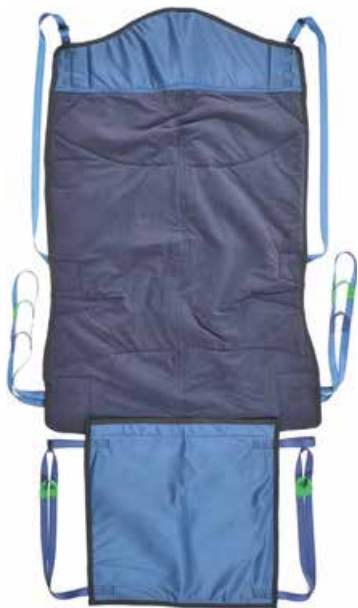

Description:

- The Klip 2 Stand model comes with a jacket, 2 lifting straps and sewn-in gusset section and is designed for use with a track hoist system to help with assisted walking and standing.
- Comes as standard in Spacer material but is also available in mesh.
- The jacket comes as standard in an air-permeable lightweight Spacer Fabric material.
- Double clip & hook/loop fastening for extra security.
- sewn in gusset for optimum support.

Floor to Seat Sling

one-size

✓ 2 Year Warranty

FTS

Description:

- The Floor to Seat System was designed to address a problem identified through an investigation into incidents of unsafe handling, undertaken by Gwynedd Council.
- It was discovered that staff were unsure of what sling to use to lift the fallen person and has an understandable worry of causing harm to the already distressed and anxious person by selecting the wrong style and size of sling.
- The sling is padded and softly lined to provide comfort and protection.
- Hyperlast material is on the outside of the sling to facilitate easy sliding.
- Adjustable straps to enable optimum positioning.
- Provides a safe solution to moving fallen service users, for all parties involved.
- Allows a safe and dignified transfer from the floor to a safe area.

Person into Bed System

✓ 2 Year Warranty

PINTOB

Description:

- The Person into Bed System was developed with Gwynedd Council to enable the carer to assist a person with reduced mobility and weaker upper body strength into bed.
- This system supports a person in the semi-reclined sitting position during the manoeuvre.
- With the person fully supported in this way, it's much easier to lift the person's legs up. As the legs are lifted up onto the bed, the person is slid around into position on the bed.
- When the transfer is completed, the slide sheets and excess pillows are easily removed as the person is settled into a comfortable position.
- Comfortable for the person being assisted, reduces the risk of harmful handling, and reduces the risk of carer injury and developed with single-handed care plans in mind.
- Check with moving and handling advisor for safe lifting loads.

Hydraulic Shower Trolley

✓ 12 Month Warranty

155000

Description:

- The Timo Hydraulic Shower Trolley combines modern technology and design to enable easy bathing for both patients and carers.
- Adjustable in height by means of an easy-to-use foot pedal and hydraulic cylinder, the optimum height for both the patient and the carer can easily be achieved.
- A function unique to the hydraulic shower trolley is its side-folding top which helps with cleaning and maintenance.
- Built in channels for quick and easy drainage.
- Drop down safety rails for quick easy access.
- Available in the 3 sizes, 1700mm, 1900mm and 2100mm.
- Maximum weight of the patient is 150kg; the maximum permissible load is 200kg (Patient + Water).
- See page 95 for measurements.

Hydraulic Shower Trolley With Adjustable Backrest

✓ 12 Month Warranty

155010

Description:

- The Timo Hydraulic Shower Trolley is also available with an adjustable backrest as a standard option.
- It combines modern technology and design to enable easy bathing for both patients and carers.
- Adjustable in height by means of an easy-to-use foot pedal and hydraulic cylinder and 30 degrees hydraulic backrest adjustment.
- Drop down safety rails for quick and easy access.
- Built in channels for quick and easy drainage.
- Available in 3 sizes, 1700mm, 1900mm and 2100mm.
- Maximum weight of the patients is 150kg; the maximum permissible load is 200kg (patient + Water).
- See page 96 for measurements.

Paediatric Electric Shower Trolley

✓ 12 Month Warranty

155030C

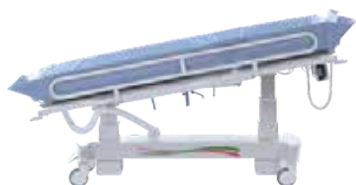

Description:

- The Timo High Low Paediatric Shower Trolley now has the smallest length and width in the Timo UK range, making it ideal for use with children or in areas of limited space.
- Its padded vinyl liner makes for a safe and comfortable environment and the range of standard features allow carers to carry out changing and personal care with ease.
- Hydraulic adjustable headrest section.
- Battery operated.
- Built in channels for quick and easy drainage.
- Drop down safety rails for quick and easy access.
- Available in 1500mm.
- Maximum weight of the patient is 100kg; the maximum permissible load is 150kg (Patient + Water).
- See page 95 for measurements.

Electric Shower Trolley

✓ 12 Month Warranty

155030

Description:

- The Timo Electric Shower Trolley enables easy care and bathing of patients thanks to its dynamic design and functionality.
- The electronic adjustment eases patient transitions and reduces carer strain.
- Using independently operated pillars, the trolley is able to achieve trendelenburg and anti-trendelenburg positions.
- Hydraulic adjustable headrest section.
- Battery operated & drop down safety rails for quick easy access.
- Built in channels for quick and easy drainage.
- Available in 3 sizes, 1700mm, 1900mm and 2100mm.
- Maximum weight of the patient is 150kg; the maximum permissible load is 200kg (patient + Water).
- See page 95 for measurements.

Extra Wide Shower Trolley

✓ 12 Month Warranty

155030W

Description:

- The Extra Wide Timo Shower Trolley enables easy care and bathing for patients thanks to its innovative design.
- An extra wide top allows extra room for showering and bathing, whilst the powered adjustment makes caring effortless and smooths the height transition for patients.
- Hydraulic adjustable headrest section.
- Battery operated.
- Drop down safety rails for quick easy access.
- Built in channels for quick easy drainage.
- Available in 1900mm x 800mm.
- Maximum weight of the patient is 150kg; the maximum permissible load is 200kg (Patient + Water).
- See page 95 for measurements.

Heavy Duty Shower Trolley

✓ 12 Month Warranty

155030G

Description:

- The Electric Timo Heavy Duty Shower Trolley boasts a 250kg safe working load, currently the highest in the Timo UK range.
- It also comes with an extra wide comfort top section which allows carers to manoeuvre larger clients with ease when bathing or carrying out personal care.
- Hydraulic adjustable headrest section.
- Battery operated.
- Drop down safety rails for quick easy access.
- Built in channels for quick and easy drainage.
- Available in 1900mm x 800mm.
- Maximum weight of the patient is 250kg; the maximum permissible load is 300kg (patient + Water).
- See page 96 for measurements.

Hi-Lo Wall Mounted Shower Stretcher

✓ 12 Month Warranty

155040

Description:

- The Timo Wall Mounted Shower Stretcher is designed to help carers bathe and shower patients as easily as possible.
- The platform can be raised and lowered simply by using the hand control, to reach the perfect height for all transfers.
- The platform also folds neatly against the wall, saving space even in the smallest bathroom.
- Battery operated (fused spur not required).
- Drop down safety rails for quick easy access.
- Soft padded top section with adjustable headrest section.
- Available in 1700mm and 1900mm.
- Maximum weight of the patient is 150kg; the maximum permissible load is 200kg.
- See page 96 for measurements.

Hydraulic Changing Plinth

✓ 12 Month Warranty

114510

Description:

- The Timo Hydraulic Changing Plinth is designed for ease of use, comfort & patient safety.
- The wipe-clean padded top comes with an adjustable backrest that can easily be altered to suit the client's needs.
- The plinth can be adjusted in height by means of a foot pump.
- The changing plinth is durable for multi-use while maintaining an attractive look suitable for homes, care facilities and hospitals.
- Drop down safety rails for quick easy access.
- Soft padded top section with adjustable headrest section.
- Available in 3 sizes, 1820mm, 2080mm and 2280mm.
- Available in a choice of 15 colours with a paper roll holder included.
- Maximum weight of the patient is 200kg.
- See page 97 for measurements.

Electric Changing Plinth

✓ 12 Month Warranty

114510E

Description:

- The Timo Electric Changing Plinth is designed for ease of use, comfort and patient safety.
- The wipe-clean padded top comes with an adjustable backrest that can easily be altered to suit the client's needs along with the electric height adjustment.
- The changing plinth is durable for multi-use situations whilst maintaining an attractive look suitable for any residential bathroom, care facility, or hospital.
