Profile:

I have been a nurse for over 30 years and have significant experience working at a senior level in the NHS, the charity sector, and in private healthcare.

Since 2016, I have supported adults and children with complex healthcare needs. I now lead and support a team of nurses in my role as Complex Care Nurse Manager in the South west. I am experienced in working alongside Case Managers and wider multidisciplinary teams to provide support for patients and their families in their own homes and other healthcare settings.

I regularly undertake training to ensure that my skills and knowledge are current, and evidence based.

Maggie Sargent & Associates

I understand my responsibilities as an expert witness and Part 35 of the Civil Procedure Rules and has undertaken training on the role and duties of an expert witness.

Qualifications and Memberships:

- Registered General Nurse, Somerset School of Nursing (1992)
- Member - Nursing & Midwifery Council (NMC)
- Member - Royal College of Nursing (RCN)
