Profile:

I am a Registered Nurse specialising in complex care, with over 30 years' experience delivering and overseeing nursing care for individuals with significant medical, physical, and cognitive needs. My clinical background spans acute, community, and long-term care settings, and I have extensive experience providing both hands-on nursing care and clinical leadership.

I have managed and supervised multidisciplinary care teams and have significant experience in developing, implementing, and monitoring safe and effective support packages in both home and residential environments.

During my career I have assessed and arranged care and support packages for people with a wide variety of health and social care needs, I have always ensured the assessments and support plans are person centred and enhance the persons quality of life.

I am passionate about ensuring all my clients have a purpose in life, and that we can support them to meet their outcomes and achieve their goals.

I currently work as a Case Manager supporting individuals with complex health, social care, and rehabilitation needs following serious injury or illness. My role involves assessing needs, coordinating multidisciplinary input, and developing tailored rehabilitation and care plans that promote independence, safety, and quality of life. I also provide Nursing

Maggie Sargent & Associates

Consultancy to Case Managers.

I have undergone training in the role of the expert witness and understand my duties under the Civil Procedure Rules pertaining to Expert Witnesses and Part 35.
