

**Approved VPK Curriculum for Providers on Probation  
June 2025**

Section (s.) 1002.67(2)(c), Florida Statutes (F.S.), directs the Florida Department of Education to approve curricula for use by VPK providers that fail to meet the minimum provider performance metric and designation as described in s. 1002.68(5)(b), F.S.

Each VPK provider identified as a provider on probation must implement an approved curriculum that is developmentally appropriate, designed to prepare a student for early literacy, provide for instruction in early math skills, enhance age-appropriate progress of students in attaining the performance standards adopted by the Department and support student learning gains through differentiated instruction that is measured by the coordinated screening and progress monitoring program. Beginning with the 2025-2026 program year, the following curricula are approved:
