Information Technology Oversight

Selected Companies for Second Phase

We would like to extend our sincere appreciation to all companies that submitted proposals in response to the recent Invitation to Negotiate (ITN).

Following a thorough evaluation of all submissions, we are pleased to identify the firms that have met the established scoring threshold and have therefore advanced to the next phase of the negotiation process.

Please be advised that the order in which the companies are listed below is not indicative of ranking, preference, or priority.

The following companies have been selected to proceed to Phase 2 of the ITN:

- **CMIT Solutions of Central Orlando**
- **Consultadd Public Services**
- **Protected Trust, LLC**

We also extend our sincere thanks to those proposers whose submissions were not selected to advance to the negotiation stage. We greatly appreciate the time, effort, and professionalism demonstrated throughout the ITN process in the preparation and submission of your proposals.

Congratulations to the vendors moving forward to the negotiation phase. We value the participation of all proposers and look forward to future opportunities to work together.
