## CAFE & BAR

Early in 1958, a certain individual was in a local establishment trying to enjoy a convivial pint in the company of a few friends.

With beer floating all around the floor, the counter awash, and practically no service the question was asked...

*"Why the hell don't we start a working men's club?"*

Ray Fleete replied, *"Why don't we? If you chaps are interested, I will go and buy a notebook and get started with names."*

This was duly done, and that marks the beginning of our Club!
