8	2008	Journal of Child Health Care	Cardiovascular disease risk in adolescent smokers: Evidence of a 'smoker lifestyle.'. Flouris A.D., Faught B.E, and Klentrou P. (2008) Cardiovascular disease risk in adolescent smokers: Evidence of a 'smoker lifestyle'. Journal of Child Health Care, 12(3), 221-31.
9	2008	American Journal of Human Biology	Generalized self-efficacy and performance on the 20-metre shuttle run in children. Cairney, J., Hay, J., Faught, B.E., Leger, L. and Mathers, B. (2008). Generalized self-efficacy and performance on the 20-metre shuttle run in children. American Journal of Human Biology, 20, 132-138.
10	2009	Poster presentation	Population Trends Toward Increasing Cardiovascular Risk Factors in Canadian Adolescents: The Healthy Heart Schools' Program 2002-2008. McCrindle, B.W., et al. (2009, October). Population trends towards increasing cardiovascular risk factors in Canadian adolescents: The Heart Niagara Healthy School Program 2002-2008. Poster session presented at the annual meeting of the Canadian Cardiology Society, Edmonton, AB.
11	2009	Journal of ASTM International	Measuring athlete exposure and body contact using time-on-task technology in ice hockey. Faught, B.E., et al.(2009). Measuring athlete exposure and body contact using time-on-task technology in ice hockey. Journal ASTM International, 6(8), 1-7.
12	2009	Poster presentation	Cross-sectional Trends in Cardiovascular Risk Factors in Grade 9 Students: The Heart Niagara Screening Program 2002-2008. McCrindle, B.W., et al. (2009, October). Cross-sectional trends in cardiovascular risk factors in grade 9 students: The Heart Niagara screening program 2002-2008. Poster session presented at the annual meeting of the Canadian Cardiology Society, Edmonton, AB.
13	2010	Journal of Pediatrics	Population Trends Toward Increasing Cardiovascular Risk Factors in Canadian Adolescents. McCrindle, et al. (2010). Population trends towards increasing cardiovascular risk factors in Canadian adolescents. The Journal of Pediatrics, 157(5), 837-843.
14	2010	Poster presentation	Incremental utility of using waist circumference in addition to body mass index when evaluating the association between adiposity and cardiovascular risk in adolescents. Khoury, M., et al. (2010, October). Incremental utility of using waist circumference in addition to body mass index when evaluating the association between adiposity and cardiovascular risk in adolescents. Poster session presented at the annual meeting of the Canadian Cardiology Society, Montreal, QC.

15	2010	Poster presentation	Association between sleep and cardiovascular risk factors in adolescents. Manlhiot, C., et al. (2010, October). Association between sleep and cardiovascular risk factors in adolescents. Poster session presented at the annual meeting of the Canadian Cardiology Society, Montreal, QC.
16	2010	Clinical Nursing Research	Adolescent cardiovascular risk factors: A follow-up study. Kilty, H.L., and Prentice, D. (2010) Adolescent cardiovascular risk factors: A follow-up study. Clinical Nursing Research, 19(1), 6–20.
17	2011	Poster presentation	Examining the Impact of Socioeconomic Status on Cardiovascular Risk Factors and Health Behaviours in Youth.. Lord, S., Manlhiot, C., McCrindle, B.W. (2011) Examining the Impact of Socioeconomic Status on Cardiovascular Risk Factors and Health Behaviours in Youth. Poster session presented at: Research Day 2011; ??-??; Toronto, ON.
18	2011	Poster presentation	Cardiovascular risk in overweight and obese adolescents: Is there an influence of physical activity. Banks, L., et al. (2011) Cardiovascular risk in overweight and obese adolescents: Is there an influence of physical activity. Poster session presented at the 2nd Canadian Obesity Summit, Montreal, QC.
19	2011	Poster presentation	The association between sleep disturbances and obesity in adolescents may be mediated by increased consumption of caffeinated beverages. Davies, J., et al. (2011) The association between sleep disturbances and obesity in adolescents may be mediated by increased consumption of caffeinated beverages. Poster session presented at the 2nd Canadian Obesity Summit, Montreal, QC.
20	2011	Poster presentation	The association of cardiovascular risk and high body mass index in adolescents is influenced by waist circumference. Khoury, M., et al. (2011). The association of cardiovascular risk and high body mass index in adolescents is influenced by waist circumference. Poster session presented at the 2nd Canadian Obesity Summit, Montreal, QC.
21	2011	Canadian Journal of Diabetes	The association of cardiometabolic risk and high body mass index in adolescents is mediated by waist circumference. Khoury, M., et al. (2011). The association of cardiovascular risk and high body mass index in adolescents is influenced by waist circumference. Canadian Journal of Diabetes 35(2) Supplement, 145.
