

Big Idea: 4. Talents and Interests: Each of us can develop a unique set of talents and interests to bring life-long contentment, joy and direction.

In this Learning Enquiry, you will have the opportunity to develop your own interests and talents in a variety of ways. You will learn how people can earn money through pursuing their talents and interests which bring joy and direction to their lives.

We will aspire to develop our talents and skills in writing, music and art by learning from great people who earn money from their talents.

We will need to persevere to try out new skills and edit and revisit our work. We'll need to problem-solve when things don't work out as we had hoped.

Broadening our experiences:

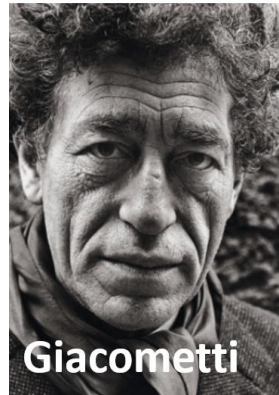

You will go on a sculpture trail and explore the impact the art has on you emotionally.

You will also hear from a real-life sculptor to find out how they create their pieces.

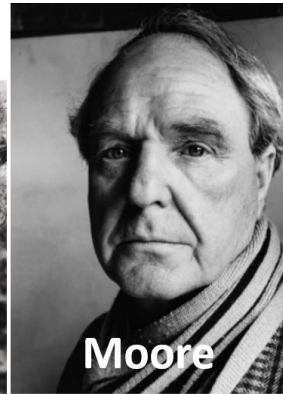

You will display your sculptures at Paignton Zoo.

Soul Searchers

How can art and music evoke emotion?

Giacometti

Moore

Gormley

Have you ever thought about what causes emotions or feelings?

A range of things can change how we feel including music and art. You might listen to music when you're feeling sad or at a party to make you feel excited! Art can also impact us – we can view a piece and it will evoke an emotional response.

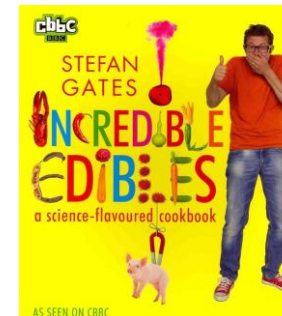

Sculpture is a form of art which has been around since the prehistoric times and has been used by humans to express themselves. You will learn about and imitate a range of modern sculptors including Giacometti, Moore and Gormley exploring their styles, techniques and materials.

Each year, Cockington Court has its own sculpture trail, which displays a range of different pieces by local artists. You will take inspiration from your own feelings to create your own musical composition and sculpture that reflects an emotion. We will then display these at Paignton Zoo.

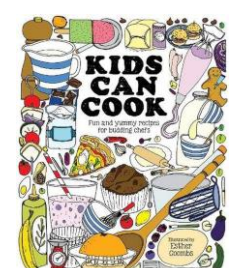

Our Key vocabulary

Emotion	Feelings – the result of an event, encounter or thought.
Dimensions	Musical dimensions are a way of describing sounds. These can be changed to create different effects.
Semibreve	A note with a 4 beat duration.
Semiquaver	A note with a quarter of a beat duration.
Structure	The way a piece of music is organised.
Sculpture	A creation of artistic objects in 3 dimensions – height, width and depth.
Malleable	Capable of being shaped.
Texture	How something feels when it is touched.
Intricate	Something that is complicated or detailed
Construction	The act or process of building something.

Texts that we will be reading in school:

Recommended texts to share at home:

Music Sticky Knowledge

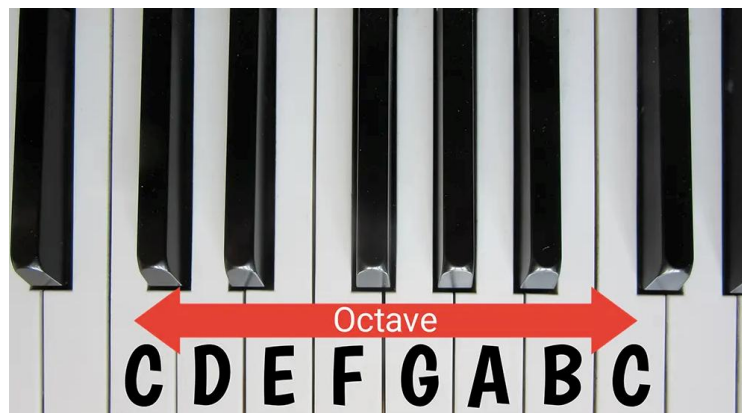

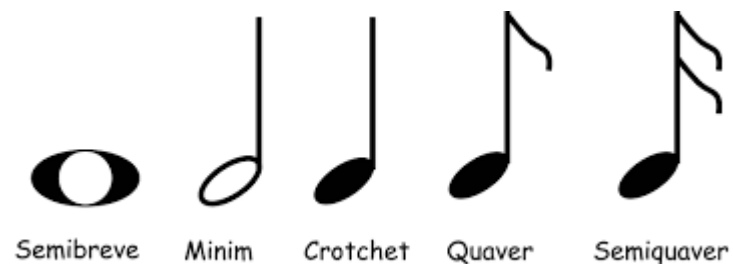

An octave is 8 notes.

Music can evoke a specific mood or atmosphere.

Semibreves are worth 4 beats.

Semiquavers are worth half of a quaver ($\frac{1}{4}$ of a beat).

$\frac{3}{4}$ time means 3 beats in a bar; $\frac{4}{4}$ time means 4 beats in a bar.

Art Sticky Knowledge

Sculptures are decorative, 3D forms of art that have been in existence for centuries.

There are four main techniques for shaping clay:
Roughing Out. Adding Clay. Removing Clay. Maneuvering Clay.

Sculptures use four basic techniques. They either take (carve) away or add materials (construction) to create the sculpture.

Anthony Gormley is a famous English sculptor who has created sculptures all around the world, including 'The Angel of the North' in Gateshead.

Clay is a naturally occurring sticky fine grained earth. It can be molded into different shapes. Clay is used to make bricks, potteries, and ceramics. It is also used to make sculptures and decorative patterns and designs.
