

ELMO

Empowering Visual Learning Everywhere

Teach the Moment as It Happens.

From everyday lessons to unforgettable discoveries.

My Weekend

On Saturday, I went to the park with my family. We played soccer and had a picnic. It was so much fun! ♥

Every class. Every subject. Every day.

Science, math, reading, writing, art, social studies — teachers and students find countless ways to show, explain, and share what's happening in class, often by modeling ideas and processes live so every student can follow along.

SCIENCE / STEM

Specimens, experiments, circuits — the real thing, live, so every student can see it clearly from their desk.

MATH

Model the problem, step by step — live for the whole room to follow along.

ELA & ART

Showcase a student's work the moment it happens — a paragraph, a sketch, a story worth celebrating.

SOCIAL STUDIES

Maps, photographs, primary sources — history in their hands, and on the screen.

REMOTE & HYBRID

The same object, the same page, the same demonstration — presented live and in real time, wherever they're learning.

EVERY LEARNER

Every student sees the same thing, at the same moment — in any classroom, for every learner.

So — what would your class look at first? ✨

Document Cameras ♥ Interactive Displays

Your display fills the room with digital content. A document camera puts real objects where every student can see them — a book, student work, a specimen, and more.

Together, they connect every student to the learning happening right in front of them.

Which one fits **your** classroom?

Whether you're teaching from a book, showcasing student work, running a science experiment, or modeling through an everyday lesson — there's an ELMO designed for the way you teach.

OX-1

Simple, Durable, Everyday-Ready

Built for everyday lessons and demonstrations, with clear 1080p Full HD imaging your class can count on.

SPECIFICATIONS

RESOLUTION 1080p HD

A built-in microphone and LED light come standard on all models and work seamlessly with the free ELMO annotation software for Windows, MacOS and Chromebook.

Made for the way you teach.

Additional tools that enhance teaching

Expand what you share: annotate, cast, and connect.

ELMO Board

4K interactive display – built to pair seamlessly with ELMO cameras.

ELMO Cast

Wireless casting from ELMO TT-12G or any mobile devices – no app, no dongle, up to 4K

CRA-2

Annotate over the live images and presentation from anywhere in the room.

Writing Board

A dry-erase, anti-glare surface for math problem solving, handwriting, lesson plans, and more.

Why ELMO?

For generations, educators have trusted ELMO to bring the real world into their classrooms — simple to use, reliable every day — so you can focus on what matters most: teaching.

It just works.

Power on and teach. ELMO cameras are designed for everyday classroom use — with simple setup, dependable performance, and reliability that helps keep lessons running without interruption.

Built to outlast the school year. Many of them.

Teachers rely on the same ELMO cameras for years — often beyond 5 years. That means fewer replacements, longer-lasting value, and a budget that stays predictable.

Expert support, ready when you need it.

Get US-based support from real people, plus a clear, in-depth knowledge base with answers when you need them.

Your ELMO team

Not sure where to start?

ELMO experts can help you choose the right products, training, and support.
