

Sabio Holdings Inc.

Management's Discussion & Analysis

For the three and six months ended June 30, 2024

Expressed in U.S. Dollars

All amounts herein are expressed in U.S. Dollars unless otherwise stated.

The Management's Discussion and Analysis ("MD&A") explains the variations in the consolidated operating results and financial position and cash flows of Sabio Holdings Inc. ("Sabio" or the "Company") (formerly Spirit Banner II Capital Corp., hereafter referred to as "Spirit") as at and for the three and six months ended June 30, 2024. References in this MD&A to "us", "we" and "our" mean Sabio unless otherwise stated.

This analysis should be read in conjunction with Sabio's Condensed Interim Consolidated Financial Statements for the three and six months ended June 30, 2024, and related notes (the "Condensed Interim Consolidated Financial Statements"). The Condensed Interim Consolidated Financial Statements and extracts of those Condensed Interim Consolidated Financial Statements provided in this MD&A, were prepared in U.S. dollars and in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board, using the accounting policies described therein. As a result of the rounding of dollar differences, certain total dollar amounts in this MD&A may not add exactly to their constituent amounts. All amounts are presented in U.S. dollars unless otherwise indicated. Throughout this MD&A, percentage changes are calculated using numbers rounded as they appear. Readers are cautioned that this MD&A contains certain forward-looking information. (Please see the "Forward Looking Statements" section below for a discussion of the use of such information in this MD&A).

Management of the Company is responsible for ensuring that processes are in place to provide sufficient knowledge to support the representations made herein. The Board of Directors provides an oversight role with respect to all public financial disclosures by the Company and has reviewed this MD&A and the accompanying consolidated financial statements.

Investors should be aware of the inherent limitations of certifying officers of a venture issuer to design and implement, on a cost-effective basis, appropriate Disclosure Controls and Procedures and Internal Controls over Financial Reporting as defined in NI 52-109. Such limitations may result in additional risks to the quality, reliability, transparency, and timeliness of interim and annual filings and other reports provided under securities legislation.

This MD&A is dated and approved by the Board of Directors as of August 21, 2024.

Forward-Looking Statements

Certain statements in this MD&A may constitute forward-looking statements, including those identified by the expressions such as "may", "will", "intend", "anticipate", "believe", "expect", "foresee", "intend", "plan", or similar expressions to the extent that they relate to the Company or its management. The forward-looking statements are not historical facts but reflect the Company's current assumptions and expectations regarding future events. Forward-looking statements in this MD&A include but are not limited to statements regarding subscriber additions, the variability of the revenues going forward, anticipated market trends and technology adoption by customers and industry peers, anticipated growth in revenue and expenses, the potential impacts of additional expenditures on revenue growth rates, the sufficiency of cash on hand, the benefits of the App Science platform, the realization of the synergies arising from the Acquisition of Vidillion Inc., and the Company's ability to obtain the financing necessary to continue operations. There can be no assurance that such statements will prove to be accurate, and actual results and future events may differ materially from those anticipated in such statements.

By its nature, forward-looking statements are subject to several risks and uncertainties that could cause actual results or events to differ materially from current expectations and assumptions or contribute to the possibility that predictions, forecasts or projections will prove to be materially inaccurate. These risks and uncertainties include, but

are not limited to, the factors discussed in the "Risk Factors" section of this MD&A. Readers are cautioned not to place undue reliance on forward-looking information.

Non-IFRS Measures

The Company prepares its Condensed Interim Consolidated Financial Statements in accordance with IFRS. Non-IFRS measures are used by management to provide additional insight into our performance and financial condition. We believe non-IFRS measures are an important part of the financial reporting process and are useful in communicating information that complements and supplements the Condensed Interim Consolidated Financial Statements. This MD&A also includes certain measures which have not been prepared in accordance with IFRS such as, Adjusted EBITDA. To evaluate the Company's operating performance as a complement to results provided in accordance with IFRS, the term "Adjusted EBITDA", as defined by management, refers to net income (loss) before adjusting earnings for finance costs, interest earned, transaction costs, gain on loan forgiveness, income taxes, state and local taxes (recovery), stock-based compensation, amortization, settlement fees, foreign exchange differences, severance costs, and gain (loss) on disposal of intangibles. We believe that the items excluded from Adjusted EBITDA are not connected to and do not represent the operating performance of the Company.

We believe that Adjusted EBITDA is useful supplemental information as it provides an indication of the results generated by the Company's main business activities prior to taking into consideration how those activities are financed and taxed as well as expenses related to stock-based compensation, depreciation, amortization, restructuring costs, other expense (income), and foreign exchange (gain) loss. Accordingly, we believe that this measure may also be useful to investors in enhancing their understanding of the Company's operating performance. It is a key measure used by the Company's management and board of directors to understand and evaluate the Company's operating performance, to prepare annual budgets and to help develop operating plans.

Company Overview

Sabio Holdings Inc. (the "Company" or "Sabio") (formerly Spirit Banner II Capital Corp. and hereafter referred to as "Spirit"), was incorporated under the Business Corporation Act of Ontario, Canada on September 29, 2017. The registered corporate office is located at 150 King Street West, Suite 200, Toronto, Ontario, M5H 1J9. The corporate head office of the Company is located at 315 Culver Boulevard, Playa Del Rey, California, 90293.

Sabio Holdings Inc. is a leader in the fast-growing streaming TV and mobile space. Since 2015, the Company uses proprietary technology to help brands and advertising agencies more effectively reach consumers on streaming TV and mobile apps. Its unique approach to using mobile data to help reach and understand consumers continues to lead its key differentiation in a competitive media marketplace.

Sabio and its subsidiaries are renowned for delivering targeted, effective advertising solutions, analytics, and insights to some of the most significant agencies and brands in the United States. The company is backed by a team of experienced ad-tech and media professionals, supported by a robust management team with over 170 years of collective experience in television and ad-tech. Sabio employs more than 100 individuals across the United States, Canada, and India.

On November 19, 2021, Sabio successfully completed a reverse takeover transaction with Spirit, resulting in the acquisition of all securities of Spirit by Sabio's U.S.-based subsidiary, Sabio, Inc. This strategic move led to the integration of Spirit as a wholly owned subsidiary, continuing its operations under the Sabio banner. Following this transaction, the company was renamed to "Sabio Holdings Inc." and began trading on the TSX Venture Exchange

under the ticker "SBIO" as a Tier 2 technology issuer on November 26, 2021, marking a significant milestone in the Company's journey as a CTV and OTT technology provider.

Significant developments during the three and six months ended June 30, 2024, and to the date of this report include the following:

- On July 31, 2024, the Company closed on a new credit facility under the terms of a credit agreement between its U.S. operating subsidiaries—Sabio, Inc., AppScience, Inc., and FWD Tech Inc.—and SLR Digital Finance ("SLRDF"). This facility replaces the Company's existing credit facility with Avidbank and provides a US$10 million senior-secured revolving credit facility at an interest rate of the greater of: (i) Prime rate plus 2.15%, or (ii) 8.5%. The facility has a three-year term and is secured against all of the Company's assets.

- On June 4, 2024, the Company granted 210,000 stock options under the Company's Omnibus Equity Incentive Plan to certain directors and officers of the Company to acquire an aggregate of 210,000 common shares in the capital of the Company. The Company does not currently pay cash to its independent directors.

- On April 22, 2024, Sabio's App Science™ subsidiary announced a multi-year renewal with Pivot Marketing Group to support their clients including Toyota Motor North America. App Science's cross-platform measurement solutions will empower Pivot to reach, engage, and validate their audiences and their behaviors at a deeper level, and will leverage the platform's AI capabilities.

- On March 26, 2024, the TSX Venture Exchange accepted a notice filed by the Company to implement a Normal Course Issuer Bid, whereupon the Company may, during the 12-month period commencing April 2, 2024, and ending April 1, 2025, purchase up to 852,184 shares in total, being 5% of the total number of 17,043,687 shares outstanding as at March 19, 2024.

- On February 29, 2024, the Company announced a strategic collaboration with McDonald's USA, through a partnership with Publicis Groupe. McDonald's will leverage Sabio's CTV/ITT inventory, customized audience segments and App Science's proprietary, 55 million household graph data, to effectively connect with and reach the growing U.S. multicultural audience.

- On February 6, 2024, the Company appointed President of GroupM Multicultural Gonzalo Del Fa as an independent member of the Board of Directors. As President of GroupM Multicultural, Mr. Gonzalo Del Fa plays a key role in all aspects of multicultural marketing, diverse media, and inclusive investment efforts across GroupM, WPP's media investment group. In addition to his role at GroupM, he is the Past-Chairman of the Hispanic Marketing Council. Prior to joining GroupM, Mr. Gonzalo Del Fa worked at American Express Argentina, BBVA, Hachette Filipacchi, and Editorial Televisa.

Revenue:

Three-month periods ended June 30, 2024 and 2023.

Sabio Holdings Inc. generates revenue by delivering targeted advertisements for the top advertising agencies in the world, and the brands they represent, on TV and mobile streaming devices. In addition, through its proprietary, end-to-end technology ecosystem, its App Science™ subsidiary provides unique, ROI-focused analytics & insights to help its clients validate spend, while the Sabio SSP leverages direct supply relationships for both pricing and margin efficiency. Sabio's platform reaches 110M connected TV devices and 55M validated TV and mobile households on platforms such as Roku, Amazon Fire, Apple TV+, Samsung TV, Vizio, and LG, amongst others. The Company's clients include the top 100 advertising brands in the United States, who Sabio sells to through their respective advertising agencies. Revenue from advertising is mostly generated through video and display advertising delivered through advertising impressions. Advertising is typically sold on a cost-per-thousand ("CPM") basis and is evidenced by an Insertion Order, ("IO"). Revenue is recognized as the number of impressions are delivered. Revenue for App Science is generated via the sales of insights reports and brand study reports and licenses to subscribe to the App Science™ platform, while revenue for Sabio SSP is generated via sales connected to its proprietary CTV and OTT ad-supported streaming supply side platform.

Consolidated revenues for the three months ended June 30, 2024, composed primarily of Connected TV and OTT ad-supported streaming and mobile display sales, was $8,897,431, an increase of $909,749 from $7,987,682 for the three months ended June 30, 2023, and the highest second quarter revenues in Sabio's history. The 11% increase in sales was primarily driven by growth within a growing Connected TV and OTT ad-supported streaming business that continues to take market share. Connected TV and OTT ad-supported streaming remains one of the fastest

growing categories in advertising, and whose sales model carries inherent cost efficiencies versus one dependent on mobile display (where campaign parameters often require more customization). The rapid growth of ad-supported (Connected TV and OTT) streaming into Sabio's dominant sales category - representing 77% of our sales mix for the quarter, compared to 62% in the prior year's period - evidences Sabio's ability to segment ourselves in the market by leveraging proprietary data to generate valuable marketable insights through a non-cookie based platform. These insights drive a more powerful connection to target audiences, helping brands and political advertisers effectively reach, engage and validate ("REV") audiences in a fragmented media ecosystem. In Management's view, Sabio's ability to reach increasingly diverse cord-cutters with authenticity, wherever they stream content, positions the Company well in the quarters to come as our ad-supported streaming business continues to outpace industry trends.

By segment, Connected TV/OTT ad-supported streaming sales for the three months ended June 30, 2024, increased by 39% to $6,888,940, an increase of $1,918,008 from $4,970,932 for the three months ended June 30, 2023. The increase was primarily driven by increased Connected TV/OTT ad-supported streaming sales across several verticals, including agriculture, consumer packed goods, quick-service restaurants and political and advocacy compared to the prior year's period, and represented the highest second quarter Connected TV/OTT ad-supported revenues in Sabio's history.

Connected TV advertising remains one of digital advertising's fastest-growing channels, and in the first half of 2024, the Company continued to gain market share through its end-to-end REV ecosystem. Sabio, through its DSP and ad server, is able to provide targeted campaigns solutions to top agencies and brands by monetizing the Sabio SSP ad slots, as well as through other third-party Connected TV/OTT ad-supported streaming apps. With its expertise in implementing mobile data for precise audience targeting, the Company is uniquely positioned to provide the next level consumer behavior analytics. To this end, it has established a subsidiary to commercialize its App Science™ analytics and validation capabilities.. For the three-months ended June 30, 2024, App Science generated $445,621 in sales, of which $331,687 in sales were to Sabio, and eliminated on consolidation, a 130% increase compared to $193,453 in sales in the prior year's quarter (or 55% increase excluding intercompany sales to Sabio). 100% of the campaigns run by Sabio's top customers were powered by App Science™ segments, which once again served as Sabio's key, proprietary differentiator in a competitive marketplace.

For the three months ended June 30, 2024, mobile display sales were $1,877,038, a decrease of $1,066,109, or 36%, from $2,943,147 for the three months ended June 30, 2023 as more legacy mobile display campaigns continued to shift their spend with Sabio from mobile display to mobile streaming revenue, recognized under our Connected TV/OTT ad-supported streaming revenue category.

Six-month periods ended June 30, 2024 and 2023.

Consolidated revenues for the six-month period ended June 30, 2024, composed primarily of Connected TV and OTT ad-supported streaming, and mobile display, was a record $15,248,964, an increase of $779,710, or 5%, from $14,469,254 for the six months ended June 30, 2023. The 5% increase in sales was primarily driven by Connected TV and OTT ad-supported streaming sales, which represented 77% of our sales mix for the six-month period, compared to 61% in the prior year's period.

By segment, Connected TV/OTT ad-supported streaming sales for the six months ended June 30, 2024, increased to $11,767,059, an increase of $3,003,983, or 34%, from $8,763,076 for the six months ended June 30, 2023. This represented the highest first-half Connected TV/OTT ad-supported revenues in Sabio's history. Demand for unique analytic capabilities that App Science provides continues to increase. For the six-months ended June 30, 2024, App

Science generated $713,578 in sales, of which $391,687 in sales were to Sabio, and eliminated on consolidation, an 88% increase compared to $380,439 of sales in the same prior last year (or 24% increase excluding intercompany sales to Sabio). 100% of the campaigns run by Sabio's top customers were powered by App Science™ segments, which once again served as Sabio's key, proprietary differentiator in a competitive marketplace.

For the six months ended June 30, 2024, mobile display sales were $3,134,403, a decrease of $2,310,465, or 42%, from $5,444,868 for the six months ended June 30, 2023, as our legacy mobile display campaigns continued to shift their spend with Sabio from mobile display to mobile streaming revenue, recognized under our Connected TV/OTT ad-supported streaming revenue category.

(1) As defined in "Non-IFRS Measures"

Three-month periods ended June 30, 2024 and 2023.

Adjusted EBITDA for the three-month period ended June 30, 2024, was a loss of $281,774, compared to a loss of $1,724,781 for the three months ended June 30, 2023. Despite the seasonal trends of the advertising business where the majority of spend typically takes place in the second half the year, Sabio's focus on cost discipline and generating consistent & predictable revenue streams, driven by record upfront commitments, produced the lowest second quarter loss since becoming a public company in November 2021. The 84% decrease in loss of $1,443,007, compared to the prior year's quarter, was primarily driven by several cost and operational efficiency initiatives implemented since the second quarter of 2023. Normalized for commissions and bonuses, these initiatives resulted in a 11% reduction in the second quarter operating expenses compared to the prior year's period. For the quarter ended June 30, 2024, non-recurring adjustments included severance expenses of $149,481 connected to these initiatives.

Six-month periods ended June 30, 2024 and 2023.

Adjusted EBITDA for the six-month period ended June 30, 2024, was a loss of $1,590,558, a decrease in the loss of $2,355,227 compared to the $3,945,785 loss for the six months ended June 30, 2023. The 60% decrease in loss was primarily driven by several cost and operational efficiency initiatives implemented since the second quarter of 2023. For the six months ended June 30, 2024, non-recurring adjustments included severance expenses of $235,814 connected to these initiatives. As it enters the second half of the year where, historically, close to 70% of our annual revenues are generated, Sabio enters the latter half with its lowest first-half loss since becoming a public company in November 2021, driven by its focus on cost discipline and generating consistent & predicable revenue streams.

Operating Expenses:

The following table summarizes various expenses for the three and six months ended June 30, 2024, and 2023:

	For the three months ended		For the six months ended

Three-month periods ended June 30, 2024 and 2023.

Sales and marketing

Sales and marketing consist of all costs associated with selling and marketing the Company's products and services. These costs include all salaries and wages, benefits, commissions, travel, marketing and payroll taxes for our sales, marketing, and account management teams. Sales and marketing expenses for the three months ended June 30, 2024, were $3,352,604, a decrease of $579,385 or 15% from $3,931,989 for the three months ended June 30, 2023. Management's cost and operational efficiency initiatives resulted in reduced contractor, advertising and other marketing-related expenditures. While our operating infrastructure continues to become more efficient, the Company is benefiting from a strategic reallocation of internal resources aimed at increasing ROI within its sales and marketing apparatus. Targeted investments within the business helped successfully secure record upfront commitments and continues to drive double-digit growth within our Connected TV/OTT ad-supported streaming business.

General and administrative

General and Administrative costs include legal and professional fees, employee training, bank charges, contractors, administrative salaries and wages, employee meetings and office supplies. General and administrative costs for the three months ended June 30, 2024, were $1,224,016, an increase of $12,966, or 1%, from $1,211,050 in the same quarter of the prior year.

Occupancy

Occupancy costs include short-term leases, utilities and incidental costs incurred throughout the Company's operating footprint. Occupancy costs for the three months ended June 30, 2024, were $146,092, an increase of $14,914 or 11% from $131,178 in the same quarter of the prior year.

Finance costs

Finance costs for the three months ended June 30, 2024, were $313,482, an increase of $72,455 or 30% from $241,027 in the comparable period of fiscal 2023. The increase was primarily attributable to increases in the Wall Street Journal prime rate and the closure of the Company's convertible note offering in August 2023. As at June 30,

2024, the company had an outstanding loan balance of $5,561,314 under an accounts receivable line of credit with Avidbank, a decrease of $1,509,330 or 21% from $7,070,644 as at December 31, 2023.

On August 16, 2023, the Company closed a non-brokered private placement financing of secured and unsecured notes for total gross proceeds of $1,289,380 (CAD$1,737,850). Both secured and unsecured notes bear interest at the rate of 14% per annum.

Research and technology costs

Research and technology costs consist of all costs associated with studies and uncapitalized development processes in connection to maintaining and increasing the effectiveness and efficiency of our technological platforms and proprietary technologies. The majority of such costs are comprised of salaries and wages, costs associated with housing the required computer equipment and technologies and data and analytics costs. Research and technology costs for the three months ended June 30, 2024, were $1,156,129, a decrease of $174,287, or 13%, from $1,330,416 compared to the same period of the prior year. Since its acquisition of Vidillion Inc., Management has implemented several operational synergies and economies of scale that have resulted in cost reductions, including within our cloud storage and data analytics processes, which contributed to the decline.

Stock-based compensation

The Company uses an omnibus incentive plan as a means for employee compensation, retention, and incentives. Stock-based compensation for the three months ended June 30, 2024, was $58,145, a decrease of $118,390 or 67% from $176,535 in the same period of the prior year. Stock-based compensation granted in fiscal 2024 was related to executive and non-executive and consultant compensation in the ordinary course of business.

Six-month periods ended June 30, 2024 and 2023.

Sales and marketing

Sales and marketing consist of all costs associated with selling and marketing the Company's products and services. These costs include all salaries and wages, benefits, commissions, travel, marketing and payroll taxes for our sales, marketing, and account management teams. Sales and marketing expenses for the six-month period ended June 30, 2024, were $6,277,595, a decrease of $1,132,544, or 15%, from $7,410,139 in the same period in the prior year. Management's cost and operational efficiency initiatives resulted in reduced contractor, advertising and other marketing-related expenditures. Targeted investments within the business helped successfully secure record upfront commitments and continues to drive double-digit growth within our Connected TV/OTT ad-supported streaming business.

General and administrative

General and Administrative costs include legal and professional fees, employee training, bank charges, contractors, and administrative salaries and wages, employee meetings and office supplies. General and administrative costs for the six months ended June 30, 2024, were $2,276,990 a decrease of $128,697, or 5%, from $2,405,687 in the same period of the prior year.

Occupancy

Occupancy costs include short-term leases, utilities and incidental costs incurred throughout the Company's operating footprint. Occupancy costs for the six months ended June 30, 2024, were $321,212, a decrease of $16,248, or 5%, from $337,460 in the same quarter of the prior year.

Finance costs

Finance costs for the six months ended June 30, 2024, were $627,828, an increase of $216,320, or 53%, from $411,508 compared to the same period of the prior year. The increase was primarily attributable to increases in the Wall Street Journal prime rate and the closure of the Company's convertible note offering in August 2023.

Research and technology costs

Research and technology costs consist of all costs associated with studies and uncapitalized development processes in connection to maintaining and increasing the effectiveness and efficiency of our technological platforms and proprietary technologies. The majority of such costs are comprised of salaries and wages, and costs associated with housing the required computer equipment and technologies. Research and technology costs for the six months ended June 30, 2024, were $2,173,984, a decrease of $586,404, or 21%, from $2,760,388 compared to the same period of the prior year. Since acquiring Vidillion Inc., management has implemented several operational synergies and achieved economies of scale, leading to cost reductions in areas such as cloud storage and data analytics, which contributed to the overall decline in expenses.

Stock-based compensation

The Company uses stock-based compensation as a means for employee compensation, retention, and incentives. Stock-based compensation for the six months ended June 30, 2024, was $104,322, a decrease of $218,101, or 68%, from $322,423 in the same period of the prior year. The stock-based compensation granted in fiscal 2024 year-to-date is related to executive and non-executive and consultant compensation in the ordinary course of business.

Research and Development Expenditures:

Research and development expenses consist of certain remunerations paid to engineer personnel. Development costs that meet the criteria under IAS 38 Intangible Assets are capitalized as an Intangible Asset. Deferred development costs have finite lives and are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized using the straight-line method. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

During the three months ended June 30, 2024, the Company capitalized $22,545 to Intangible Assets, compared to $17,777 in the comparable period in fiscal 2023. During the six-month period ended June 30, 2024, the Company capitalized $57,819 to Intangible Assets, compared to $42,229 in the comparable period in fiscal 2023.

During the three months ended June 30, 2024, the Company amortized a total of $36,595 in development expenses, compared to $22,546 in the comparable period in fiscal 2023. During the six-month period ended June 30, 2024,

the Company amortized a total of $74,463 in development expenses, compared to $45,957 in the comparable period in fiscal 2023.

OUTLOOK

Sabio exited the first half of 2024 with the highest first-half consolidated revenues in its history, driven by double-digit revenue growth in the second quarter. The Company enters the second half of the year where, historically, close to 70% of annual revenues are typically generated, armed with record upfront commitments, high reoccurring revenues (91% in the first half) and lowest first-half Adjusted EBITDA loss as a public company. Management expects accelerating revenues and a lower cost infrastructure to culminate in the quarters ahead to a return to meaningful Adjusted EBITDA profitability for the year. As Connected TV/OTT ad-supported streaming continues to be one of the fastest-growing channels in advertising, Sabio's 34% revenue growth in this category during the first half of 2024 demonstrates that we are continuing to outpace the broader market and take market share. In further testament to the strength of our core business, when normalized for advocacy and political spending, Connected TV/OTT streaming sales grew 52% in the second quarter alone compared to the same period last year.

The inherent cost efficiencies in transitioning to this growing Connected TV/OTT streaming sales model, away from one more dependent on mobile display, has resulted in continued gains in operating leverage in the first half of 2024, driving a $2.3 million reduction in our first half Adjusted EBITDA loss compared to the prior year's six-month period. As our operating infrastructure continues to become more efficient, our sales model continues to become more predictable.

This predictability helps derisk our revenue model and sets the stage for continued sustainable growth, as supported by:

- High rates of reoccurring revenue, with 91% of consolidated revenues in the first half of 2024 coming from repeat customers (up from 74% in the first half of 2023), driven by our proprietary App Science™ cross-screen graph capabilities. 70% of existing top brands increased their spend with Sabio compared to the prior year's period;
- The ongoing addition of top-tier clients, with 28% of the brands that spent with us during the first half being new logos to Sabio;
- Significant upfront commitments, including multi-million dollar political and advocacy insertion orders for campaigns running during the last half 2024; and
- The most diversified vertical mix in Sabio's history.

Management continues to anticipate a return to double-digit consolidated revenue growth in 2024, surpassing both 2023 and our record-setting 2022 mid-term election year. With a streamlined operating infrastructure, Sabio expects further improvements in operating leverage and Adjusted EBITDA profitability through the second half of 2024. Management plans to allocate its improved cash flows to strengthen working capital, through both debt repayment and increased cash reserves. Combined with the closing of a new, multi-year credit line which brings both increased liquidity and long-term stability to our balance sheet, these measures will enhance balance sheet flexibility as we capitalize on several near-term growth drivers, including a new programmatic Connected TV/OTT offering set to launch in the second half of the year.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's approach in managing liquidity is to ensure, to the extent possible, that it will have sufficient liquidity to meet its liabilities when due, by continuously monitoring actual and forecasted cash flows.

We intend to use our operating income and funds on hand to meet funding requirements for the development and commercialization of our technology products and services based on anticipated market demand and working capital purposes. Our actual funding requirements will vary depending on a variety of factors, including our success in executing our business plan, the progress of our research and development efforts, our commercial sales, and our ability to manage our working capital requirements.

While the Company currently has sufficient operating capital to meet its day-to-day operating expenses, it is possible that the Company could experience a working capital deficiency in the future, which would have a materially adverse effect on the Company's liquidity. In the event future cash flows from operations are lower than expected, the Company may need to seek additional financing, either by issuing additional equity or by undertaking additional debt. If we raise additional funds by issuing equity or equity-linked securities, the ownership of our existing stockholders will be diluted. If we raise additional financing by the incurrence of additional indebtedness, we may be subject to increased fixed payment obligations and could also be subject to additional restrictive covenants, such as limitations on our ability to incur additional debt, and other operating restrictions that could adversely impact our ability to conduct our business. Any future indebtedness we incur may result in terms that could be unfavorable to equity investors. Furthermore, there is no certainty that additional financing, whether debt or equity, will be available or that it will be available on attractive terms.

As of June 30, 2024, the Company had cash of $1,640,273 as compared to $2,612,112 as at December 31, 2023, to settle current liabilities of $16,779,733 (December 31, 2023 - $17,744,528). We ended the second quarter with a net working capital deficit of $6,036,198, compared to a net working capital deficit of $3,095,365 at December 31, 2023. Included in the working capital deficit is the Company's credit facility with Avidbank, whose balance at quarter-end was $5,561,314. The facility was replaced with a new three-year facility with SLR Digital Finance after quarter-end. Management expects a material improvement in working capital in the quarters ahead. Our expectations on a return to full-year, Adjusted EBITDA profitability includes record political and advocacy orders within second half of the year, of which material cash flows will be received in advance before the run dates of the respective campaigns. Furthermore, we expect our new, multi-year credit facility to add long-term stability to our balance sheet.

On August 16, 2023, the Company entered into agreement for issue of secured convertible notes (the "secured notes") and unsecured convertible notes (the "unsecured notes" and together with the "secured notes", the "notes") to raise aggregate gross proceeds of $1,289,380 (CAD $1,737,850) which comprises of the issuance of secured notes in the aggregate principal amount of $890,328 (CAD $1,200,000) and unsecured notes in the aggregate principal amount of $399,052 (CAD $537,850). The notes issued have a maturity date of August 16, 2025. The notes will be convertible in whole or in part, at the option of the holder, into common shares of the Company at a price of CAD $1.00 per common share at any time before or on the maturity date. The secured notes bear interest at the rate of 14% per annum payable semi-annually in arrears in cash or common shares at the option of the Company and are secured against accounts receivable, deposit account, intellectual property including general intangibles, notes receivable and other assets of the Company, as more particularly described in the security agreement between the Company and Pathfinder Asset Management Ltd., the lead investor acting as collateral agent for the benefit of itself and for the other secured note holders. The security interests are structurally subordinated to the first lien security interest of Avidbank, which has now been replaced by SLR Digital Finance. The Company may, at any time, prepay all or part of the principal amount of the secured notes plus accrued and unpaid interest without penalty or bonus, except for the case of repayment within the twelve months following the issue date, the holder will be entitled to receive a repayment amount that is equal to the principal amount and interest calculated for a period of twelve months from the issue date. The unsecured notes bear interest at the rate of 14% per annum payable monthly in cash. The Company may prepay the unsecured notes issued at any time after twelve months from the issuance date.

On April 23, 2024, the Company and Avidbank agreed on terms for a 90-day extension until August 21, 2024 for the bank's credit facility and on July 31, 2024, the credit facility with Avidbank was replaced by a new a three-year new credit facility between the Company and SLR Digital Finance. The new credit facility provides for a US$10 million senior-secured revolving credit facility at an interest rate of the greater of: (i) Prime rate plus 2.15%, or (ii) 8.5%, and is secured against all assets of the Company.

The loan balance was substantially incurred before the Company went public during periods where Mr. Rahimtoola did not receive regular compensation. Mr. Rahimtoola is now compensated through the Company's regular payroll and further increases in the loan balance are not expected. The related party loan balances also include a loan principal plus interest of $61,856 ($61,556 as at December 31, 2023), with the interest rate of 1% per annum receivable from Simon Wong, an Officer of the Company. During the second quarter of 2023, the loan was extended for two (2) additional years and is due on July 15, 2025.

On August 16, 2023, the Company entered into an agreement for the issuance of secured convertible notes and unsecured convertible notes. As a part of this offering, Aziz Rahimtoola, Chief Executive Officer of the Company, subscribed for an unsecured note in the aggregate principal amount of $399,052 (CAD $537,850). The unsecured Notes will be convertible in whole or in part, at the option of the holder, into common shares of the Company at a price of CAD$1.00 per common share at any time before or on the maturity date. The unsecured notes bear interest at the rate of 14% per annum payable monthly in cash. The Company may prepay the unsecured notes issued at any time after twelve months from the issuance. At the date of issue, $314,767 (net of transaction costs of $12,757) were classified as a liability component and $71,528 was classified as equity component. The balance of the unsecured convertible note due to Aziz Rahimtoola as at June 30, 2024 classified as a liability component was $328,079 and classified as equity component was $71,528.

On November 20, 2023, several arrangements were agreed to between the Company and certain Canadian parties, including Liam Farrell – a related party - for exercising an aggregate of 2,804,702 share purchase warrants (including 182,136 share purchase warrants held by Liam Farrell) at an exercise price of CAD$0.21 ($0.17). The share purchase warrants were originally issued by the Company on January 11, 2021. These arrangements include the provision of promissory notes between the Company and warrant holders. The balance of promissory note due from Liam Farrell, including accrued interest, as at June 30, 2024 was $29,190.

OFF-BALANCE SHEET ARRANGEMENTS

The Company is not aware of any material off-balance sheet arrangements.

ACCOUNTING POLICIES AND ESTIMATES

The preparation of the Condensed Interim Consolidated Financial Statements and application of IFRS often involve management's judgment and the use of estimates and assumptions deemed to be reasonable at the time they are made. Significant assumptions and estimates used in preparing the financial statements include those related to credit quality of accounts receivable, income tax credits receivable, share-based payment transactions, capitalization and amortization of internally generated development costs, impairment tests for non-financial assets, as well as revenue and cost recognition. Sabio bases its estimates on historical experience and on various other assumptions that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets, liabilities, equity, revenue and expenses that are not readily apparent from other sources. The Company reviews estimates and underlying assumptions on an ongoing basis. Revisions are recognized in the period in which estimates are revised and may impact future periods as well. Other results may be derived with different judgments or using different assumptions or estimates and events may occur that could require a material adjustment. Material accounting policies and estimates under IFRS are found in Note 3 and Note 4 of the Company's Condensed Interim Consolidated Financial Statements.

CHANGES IN ACCOUNTING POLICIES

For the six months ended June 30, 2024, the Company has adopted several amendments for the first time, but the adopted amendments do not have a material impact on the condensed interim consolidated financial statements of the Company. Our material accounting policies are found in Note 3 of the Company's Condensed Interim Consolidated Financial Statements.

INTERNAL CONTROLS

Effective internal controls are necessary for Sabio to provide reliable financial reports and to help prevent fraud. Management of Sabio is responsible for establishing and maintaining disclosure controls and procedures for the Company. Management has designed such disclosure controls and procedures, or caused them to be designed under its supervision, to provide reasonable assurance that material information relating to the Company, including its consolidated subsidiaries, is made known to the Chief Executive Officer ("CEO") and by others within those entities on a timely basis, particularly during the period in which the annual filings are being prepared, so that appropriate decisions can be made regarding public disclosure.

An evaluation of the adequacy of the design and effective operation of the Company's disclosure controls and procedures was conducted under the supervision of management, including the CEO, as at December 31, 2023. Based on that evaluation, the CEO has concluded that the design and operation of the system of disclosure controls and procedures were effective as at December 31, 2023.

There have been no changes to Sabio's internal controls over financial reporting during the three and six months ended June 30, 2024, that have materially affected, or are reasonably likely to materially affect, Sabio's internal control over financial reporting.

OUTSTANDING SHARE DATA
