

BIG BASS. COMPACT FOOTPRINT.

The compact Seismix 1 Mk7 brings big bass performance into everyday entertainment spaces including living rooms, apartments, home offices and games rooms.

Driven by a 200mm low-frequency woofer and a high-efficiency Class D amplifier module, it delivers confident, controlled bass that enhances every listening experience.

Adding rich low energy where it matters, the Seismix 1 introduces warmth to music and greater depth to movie soundtracks.

Its compact, down-firing design allows flexible placement close to walls, in corners, or within custom cabinetry, while maintaining smooth, even bass throughout the room.

For the ultimate sound experience at home, play it through Krix.

Seismix 1 Mk7 in Black Woodgrain

Big bass impact

Brings depth, energy and excitement to everything you play, from the subtle details in music to the full force of blockbuster movies and immersive gaming.

Seamless design

The Seimix 1 blends effortlessly into your home, whether it's on display or discreetly positioned out of sight.

Made for living

Perfect for apartments, living rooms, bedrooms or even hidden in custom joinery.

Australian made

Krix has proudly engineered and manufactured speakers in Australia since 1974.
