

HOME CINEMA BASS.

The Cyclonix 12 Active Compact is a high-performance active subwoofer designed for home cinema environments where impact must be matched by flexibility. Ideal for behind-screen or in-room applications, it integrates effortlessly into both open-plan living areas and dedicated cinema spaces, delivering powerful, room-filling bass without compromise.

Featuring a 305mm long-throw woofer, a high-efficiency Class D amplifier module and two large down-firing dual ports, it combines enormous punch with deep extension.

For the ultimate cinema experience at home, play it through Krix.

Cyclonix 12 Active Compact without grille

Cyclonix 12 Active Compact with grille
