TECH RIDER (DJ)

- **1xPioneer10,DJMA9,ORXONE96**

Mixer has to be installed & connected to CDJ players & sound system upon arrival of artist.

- **3x Pioneer CDJ-3000 (linked)**

CDJ players must be at the same height as the mixer & must not be raised up or positioned on stands. Latest firmware must be installed! All 3 CDJs must be connected via "Pro DJ Link".

- **3x ethernet Cables (3x for Pioneer Pro DJ Link)**

- **2-3x free power sockets**

- **2x high quality monitor speakers placed on each side of the DJ**

- *Monitor unit, suitable for the DJ booth (at least 2x monitor speakers to be installed on the right & on the left of Artist plus 1x additional subwoofer).*

- *Monitor speakers must be positioned no further than 1m away from Artist on either side & must be in stereo l/r configuration (Not Mono).*

- *Monitor units must be bi-amped & must not be distorted, limited or compressed at any stage.*

- ***The artist should be able to change the monitor levels from the mixer.***

Venue must be available for a soundcheck at full volume, with the sound engineer, no later than 1hour before the doors open to the public.

IMPORTANT TECHNICAL NOTES

If any equipment (including monitors) is missing or in bad conditions, the artist reserves the right not to perform.
