

CUSTOMER MEMO REGARDING DESK PHONES

Please note that certain EOL (end-of-life) models will no longer support Yealink's Remote Provisioning Server (RPS) access and cannot be provisioned by our support team. You can manually provision these phones onto the network yourself or by your IT company, but no support will be provided for these models.

We highly recommend that you take advantage of our desktop application or web application soft phones for your phone system needs. If it's desirable for you to continue to use a desk phone, please let us know and we will be happy to provide a list of acceptable models that are not EOL for purchase.
