home services

PREFERRED PARKING FOR TWO VEHICLES:

Please park both vehicles side by side near the garage or front of the house to allow our operators full access to your driveway.

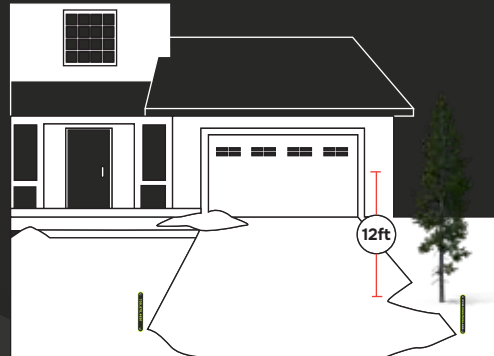

ALTERNATE PARKING FOR TWO VEHICLES:

Please pull both vehicles to one side of the driveway, parked closely together to give our operators enough room to clear the remaining space efficiently.

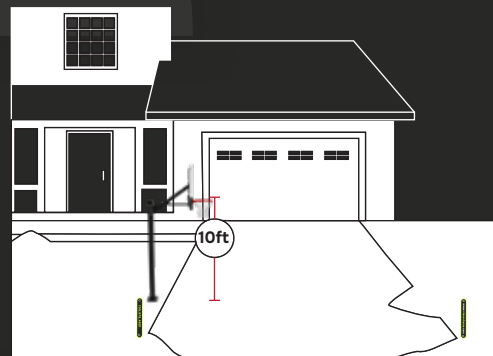

DO NOT:

Park any vehicle near the end of the driveway - this blocks access and creates an area we won't be able to clear

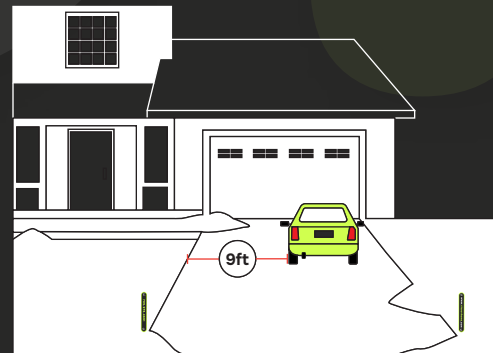

TREES, SHRUBS, AND FLOWER POTS:

Trim branches to 12', cover shrubs, and move potted plants away from the driveway.

BASKETBALL HOOPS, LAMP POSTS & OBJECTS:

Ensure 10' clearance under hoops and keep the driveway clear of lamp posts, downspouts, and other objects.

IF A CAR MUST BE PARKED:

Park fully to one side, leaving at least 9 feet of open space beside the vehicle.
