# LICENSE TO THRILL

2025

# Interested in Joining the Team?

The Beaverland Must-Skis Water Ski Show Team is always looking for new members. You can be a skiing or non-skiing member. You probably have a few questions. Here are some of the most frequently asked questions and their answers:

## How much does it cost to join?

The cost consists of both Team dues and a USA Water Ski and Wake Sports membership (for insurance).

DUES: \$130 per Person for Skiing Membership\* + \$85 USA Water Ski and Wake Sports Membership\*\*

Free for Non-Skiing Membership\* + \$85 USA Water Ski and Wake Sports Membership\*\*

\* Maximum of \$330 Skiing Membership Per Family. All team memberships include a themed T-Shirt.

\*\* Other USA Water Ski Options: \$55 for Ages Under 25 or \$175 Per Family (up to 6 family members)

## How often do we ski?

We have a scheduled practice every Tuesday, Wednesday, and Thursday evening (feel free to come watch).

We then perform our show most Sunday evenings. We also have extra practice time whenever we can fit it in.

## Do I have to know how to ski?

No! If you want to learn, we will teach you. If you want to join, but don't wish to ski, we rely heavily on our non-skiing members to help us with boat driving, spotting, sound, announcing, costumes, props, dock hands, rope making, and equipment maintenance. There's a place for everyone!

Contact any of our skiers before or after the show tonight or visit us on the web at [www.mustskis.com](http://www.mustskis.com) or [www.facebook.com/mustskis](https://www.facebook.com/mustskis)

## 2025 Show Schedule

Sunday, July 27

Sunday, August 3

Nationals Tournament – August 8-10

Janesville, WI

Sunday, August 17

Sunday, August 24 \*5:30 pm

Sunday, August 31 \*5:30 pm

## PYRAMIDS

Pyramids require the ultimate team work. Using hundreds of feet of rope, skiers actually build a human pyramid on water. Look for pyramids up to five levels high where the top skier often is 25 feet above the water. Pyramids may include up to 44 skiers, all pulled off our remote floaters by our 900HP tripe-rig towboat. They are really something to see and a crowd's favorite.

## BALLET LINE

This group of up to 24 or so ladies demonstrate balance, poise, and athletic ability as they all hop off the dock together and ski around the jump hands free. They also perform dances for the crowd on the dock and after they return to the stage. Should one of the skiers fall while in a hold, one of the safety spotters in the boat will release the girls from the pull of the boat.

## WHEN EVERY CAST MAKES A DIFFERENCE. SO DOES EVERY SECOND.

THE MERCURY 150HP PRO XS®

The best anglers aren't lucky. They're fast. They're the first ones to the best spots and the last to leave for weigh-in. They're the ones who spend the most time fishing while they're fishing. The Mercury 150hp Pro XS® outboard provides a powerful competitive edge. With exclusive components and performance tuning, it's the product of hard work and precision engineering. Nothing lucky about it.

Experience the Pro XS advantage at [MercuryMarine.com/ProXS](http://MercuryMarine.com/ProXS).

## Riverfront Wine Bar

227 Front Street, Beaver Dam, WI

## JUMPING

Jumping may take the most guts to try out of all acts in show skiing. The 5-1/2 foot tall, 14 foot wide, ski jump looks like a brick wall as the skier approaches it. Rest assured, the jump surface is lubricated with water pumped up from the lake and the special composite jumps skis glide right up the jump. Tricks include exciting spins, flips, and more.

## BAREFOOTING

Just as the name implies, this act involves skiers skimming across the surface of the water on nothing but the bare soles of their feet. Boat speeds are usually in excess of 35 mph. Sometimes forward, backwards, on one foot, or tumbling on their back, barefooting is always exciting to watch. Watch out for multi-skier barefoot lines and barefoot pyramids as well.

## STRAP DOUBLES

Strap doubles couples work together to perform various overhead moves that are like those seen in pairs ice skating. The base skiers are pulled by a special strap harness hooked around their waist. This allows the skier to have both hands free to perform lifts and turns with their partner. If the skier should fall, he's disconnected from the pull of the boat by the safety spotter in the boat.

## SWIVEL SKIING

Swivel skiing is one of the most graceful and beautiful acts you'll see on the water, and it requires incredible skill, practice, and patience. Our swivel skiers make it seem effortless as they perform graceful turns and hold beautiful poses. Often attached to or wrapped into their rope, our safety spotters in the boat are ready at all times to release them from the pull of the boat if they were to fall.

## ABOUT SHOW SKIING

Our one hour show consists of 13 separate acts which can be on or off the water. Each year we develop a theme for our show to add to the entertainment value. When we compete at tournaments we are given 20 min to setup, a strict 60 min to perform the show, and 10 min to clean up. Each act is scored by judges based on flow, execution, difficulty, and spectator appeal. Additionally we are judged on dock/equipment, pick-up boat, towboat, sound, showmanship, and overall show.

## DRIVING & SPOTTING

Show ski boat drivers are specially trained & licensed to drive our boats ranging from 300HP inboards to 900HP triple-rigs. Our drivers keep the skiers safe as they maneuver near docks, jumps, and other boats and skiers. Our safety spotters are focused on the skiers behind them ready release to release skiers from the pull of the boat should they fall and not be able to release themselves. Spotters are also the first person in the water to assist any injured skiers.
