

thein.industry

TOP Alulit s.r.o. is a member of the Thein Industry Group. The company provides comprehensive production of aluminium castings of the highest quality. It provides comprehensive services for aluminium casting production, from design, production of casting moulds and sand cores, through aluminium casting itself, to final metal finishing and other finishing operations. Gravity and low-pressure casting are used in production. As the only company on the Czech market, it uses direct and indirect Squeeze casting technology. All products are manufactured with maximum precision. The company is certified according to EN ISO 9001 and IATF 16949:2016.

COMMITMENT TO THE ENVIRONMENTAL MANAGEMENT SYSTEM (EMS)

We are committed to establishing, maintaining and continually improving an environmental management system. In all our activities, we will protect the environment, prevent pollution and reduce adverse environmental impacts, taking account of the nature, scale and environmental aspects of our production, in particular energy and material consumption, waste generation, emissions and the handling of chemical substances.

We will fulfil binding legal and other requirements related to our environmental aspects. We will establish and regularly evaluate environmental objectives, promote efficient use of resources and involve employees in environmental protection. This policy provides a framework for setting environmental objectives and is communicated to all persons working for or on behalf of the organisation; it is available to interested parties as appropriate.
