

Sustainability Disclosures – Mexem Ltd

(In accordance with Regulation (EU) 2019/2088 (“SFDR”))

Sustainability Risk Policy (Article 3)

A sustainability risk is an environmental, social or governance (“ESG”) event or condition that may have a material negative impact on the value of an investment.

Mexem Ltd integrates sustainability risks into its investment decision-making and, where applicable, investment advice, in a manner proportionate to the nature, scale and complexity of its activities.

Principal Adverse Impacts (Article 4)

Mexem Ltd does not currently consider the principal adverse impacts of investment decisions or investment advice on sustainability factors. This is due to limitations in the availability and reliability of relevant data and proportionality considerations.

This position is reviewed at least annually.

Remuneration Policy (Article 5)

Mexem Ltd’s remuneration policy is consistent with the integration of sustainability risks and does not create incentives to disregard such risks or act contrary to clients’ best interests.

Important Notice

Mexem Ltd’s portfolio management service is classified as an Article 6 product under SFDR. It does not promote environmental or social characteristics and does not pursue a sustainable investment objective.

Clients’ sustainability preferences, where applicable, are assessed separately in accordance with applicable requirements.

ESG-related information or tools on this page are for informational purposes only and do not form part of the portfolio management or investment advice service, nor do they constitute a recommendation or representation of suitability or sustainability.
