

skybow On-premises Managed Service

Your Data. Your Environment. Your Control.

- ✓ **Local Data Control**
All data (items and documents) stays securely in the customer's SharePoint, never stored in skybow's systems.
- ✓ **Trusted Security**
The solution fully relies on the customer's existing SharePoint security, compliance, and access controls.
- ✓ **Future-Proof Investment**
Move to the cloud anytime and deploy the same solution seamlessly to SharePoint Online.

Build powerful business apps with skybow
