

CBREX Success Story

The New Playbook for Building a Resilient Clinical Talent Pipeline in the US: A Proven Model for Solving the Chronic Shortage of Specialized Healthcare Professionals

The Challenge: The Friction Of Global Expansion

Chronic Talent Shortage

Widening gap between demand and supply for specialized clinical and technical roles.

Failing Traditional Models

Large national agencies lack focus, smaller firms lack sourcing horsepower.

Impact on Patient Care

Direct threat to patient care capacity, service line expansion, and operational efficiency.

Costly Solutions

Constant reactive scramble leads to long vacancies and reliance on temporary staff.

"The chronic shortage of specialized healthcare professionals directly impacts patient care."

Use Case in Action: Powering 10+ US Hospitals & Clinics

US Healthcare Providers

Critical Positions Filled

Specialist Agencies Activated

"CBREX is the strategic talent acquisition engine for a diverse group of US healthcare providers."

The CBREX Solution: An Elastic, On-Demand Talent Supply Chain

Continuous, Scalable Talent Supply

"Moving beyond traditional staffing limitations to a predictable, on-demand pipeline.

The Results: "Accuracy at Scale" for Healthcare

Unmatched Access to Specialist Talent

Successfully filled 150+ positions, accessing passive candidates invisible to traditional methods.

Precision Screening (C Screen)

Dual-layer Al system matches roles to relevant suppliers and filters for specific certifications/licenses/experience.

Sustainable Talent Pipeline

Predictable, on-demand flow of pre-vetted talent for new service lines and workforce planning.

"Delivering specialized clinical talent with the accuracy and velocity

required for uninterrupted patient care."
